

SCHOOL MEDICAL SUPPLIES

dynarex® 
we care like family™

ABOUT

Dynarex features a comprehensive range of School Medical Supplies developed by expert product specialists who understand the challenges providers face while administering proper care. Since our founding in 1967, Dynarex has been one of the industry's leaders in disposable and durable medical equipment. As your partner in the marketplace, we continue to diversify our portfolio across the entire continuum of care because the success of your business matters to us. When it comes to doing business with Dynarex, we choose to work like we're family, because We Care Like Family™.

ITEM	DESCRIPTION	QTY.	CASE QTY.
1402		1/bg	144 bgs/cs
1403	Striped Teeth	1/bg	144 bgs/cs

WeCare ClearNit Metal Lice and Nit Removal Combs feature ultra-fine stainless-steel teeth designed to effectively remove lice and nits from hair. Available in two designs—one with a plastic handle for an easy grip, and one with striped teeth for enhanced precision—these combs offer a reliable solution for thorough lice removal.

- Features high-quality stainless-steel teeth to effectively remove lice and nits
- Ultra-fine teeth with 0.1–0.12 mm spacing to capture even the smallest eggs
- Durable construction designed for long-lasting use
- 1402: Ergonomic plastic handle provides a firm, comfortable grip
- 1403: Features striped teeth for improved precision and traction
- Ideal for school nurses, caregivers, and home use

ClearNit Lice and Nit Repellent Shampoo

ITEM	SIZE	CASE QTY.
1399	4 fl. oz. Bottle	96/cs
1400	12 fl. oz. Bottle	24/cs

WeCare ClearNit Lice and Nit Repellent Shampoo gently cleanses hair and scalp, offering a solution designed to repel lice and nits. The shampoo combines natural oils and cleansing agents to support healthy hair.

- Formulated to repel lice and nits while gently cleansing hair
- Infused with natural oils such as rosemary and citronella for a soothing effect
- Peppermint and tea tree oils leave a refreshing scent

ClearNit Lice and Nit Conditioner

ITEM	SIZE	CASE QTY.
1406	2 fl. oz. Bottle	72/cs
1409	4 fl. oz. Bottle	96/cs

WeCare ClearNit Lice and Nit Conditioner facilitates the removal of lice and nits with a rich conditioning formula that coats and smooths hair for easier combing. This moisturizing conditioner incorporates jojoba, coconut oil, and shea butter to nourish both hair and scalp.

- Rich, moisturizing conditioner designed to support effective lice and nit removal
- Thick formula coats hair to ease combing and extraction
- Infused with jojoba, coconut oil, and shea butter for scalp and hair nourishment
- Gentle, non-toxic formula ideal for sensitive skin

ClearNit Lice and Nit Treatment

ITEM	SIZE	CASE QTY.
1404	4 fl. oz. Bottle	96/cs
1405	8 fl. oz. Bottle	48/cs

WeCare ClearNit Lice and Nit Treatment provides a powerful, pesticide-free solution for eliminating lice and nits. Its easy-to-apply formula softens nit glue for hassle-free removal, leaving hair clean and healthy.

- Highly effective treatment designed to eliminate lice and nits with a single application
- Non-dripping, plant-based formula offers a mess-free, easy application process
- Effectively dissolves nit glue, allowing for easy comb-out of eggs
- Hypoallergenic formula helps to minimize irritation for users of all ages
- Free from pesticides, fragrances, and harsh chemicals
- Available in family-sized bottles for extended use during outbreaks

LabChoice Disposable Lab Coats			
are designed to protect skin and clothes from light dirt, splashes, and spills. Constructed from breathable polypropylene material, these high-quality garments provide a comfortable, non-constricting fit over everyday clothing.			
<ul style="list-style-type: none"> - Triple-layered polymer material resists moisture, dirt, and spills - Knee-length garment provides ample body coverage - Knitted cuffs and collar offer added protection and comfort - Front snaps allow for quick and easy closure - Elastic wrists provide a secure fit and reduce the risk of snags and tears - Reuse or dispose as needed - Not made with natural rubber latex 			

Non-Contact Infrared Thermometer

ITEM	QTY.	CASE QTY.
5613	1/bx	10 bxs/cs

The WeCare Non-Contact Infrared Thermometer accurately measures body temperature in one second without the need for direct contact with skin. This infrared forehead thermometer stores up to 20 temperature readings and features an LCD backlit screen.

- Features an infrared temperature sensor for contactless measurement
- Temperature measured in either Fahrenheit or Celsius
- Multi-use functionality with body and object measurement modes
- Includes an audible fever alarm for readings over 100°F
- Optional audible alerts can be turned on or off
- Delivers reliable results within one second
- Stores up to 20 previous readings for easy tracking

Digital Thermometers

ITEM	DESCRIPTION	QTY.	CASE QTY.
5610		1/bx	12 bxs/cs
5611	Flexible Tip	1/bx	12 bxs/cs

WeCare Digital Thermometers provide fast and accurate oral or axillary temperature measurements displayed in either Celsius or Fahrenheit. The audible alert sounds when the reading is complete for user convenience.

- Accurately measures temperature by mouth or under the arm
- Temperature measured in either Fahrenheit or Celsius
- Audible alert when reading is complete
- Automatic shut-off function conserves battery life
- Available with standard tips (5610), flexible tips (5611), and thermometer sheaths (5614)

Thermometer Sheaths

ITEM	QTY.	CASE QTY.
5614	100/bx	50 bxs/cs

WeCare Thermometer Sheaths provide a hygienic, single-use barrier to help protect patients and caregivers from cross-contamination. Designed for convenience, these disposable sheaths eliminate the need for disinfecting or sterilizing thermometers after each use.

- Hygienic plastic sheath covers thermometer to reduce risk of cross-contamination
- Includes convenient peel-back paper tabs for easy application and removal
- Suitable for most oral, underarm, and rectal thermometers
- Disposable design for single-use convenience

BP Cuff Barrier Sleeve

ITEM	SIZE	QTY.	CASE QTY.
2136	18" x 9.25"	100/bx	5 bxs/cs

Dynarex Blood Pressure Barrier Sleeves are designed to help maintain hygiene and reduce the risk of nosocomial infections in medical environments. These single-use sleeves create a protective barrier between the skin and blood pressure cuffs, limiting cross-contamination while decreasing the need for frequent disinfection. Made from durable non-woven material, the universal-sized sleeves fit most arms, providing adaptability for various patient needs. Packaged in a convenient dispenser box, these disposable sleeves are ideal for clinics, hospitals, and other high-volume medical facilities.

- Provides a hygienic barrier between skin and blood pressure cuffs
- Helps minimize the risk of nosocomial infections in medical environments
- Reduces the need for frequent cuff disinfection, saving time and effort
- Made from SPP non-woven material for durability and reliability
- Universal size fits most arms for optimal adaptability
- Convenient disposable design, packaged in an easy-to-access dispenser box
- Not made with natural rubber latex

Digital Blood Pressure Monitors

ITEM	SIZE	QTY.	CASE QTY.
7095	Wrist	1/bx	5 bxs/cs
7096	Upper Arm	1/bx	5 bxs/cs

Dynarex Digital Blood Pressure Monitors provide accurate readings of systolic and diastolic pressure and pulse rates, offering a convenient and easy-to-use solution for daily monitoring.

- Provides digital readings of systolic and diastolic pressure and pulse rate
- Automatic inflation with built-in error detection for ease of use
- Stores up to 90 measurements and averages the latest three readings
- WHO Blood Pressure Classification Indicator for result interpretation
- Large LCD display with low battery gauge
- 2-year warranty for automatic blood pressure monitor and 12-month warranty for cuff

Blood Pressure Kits

ITEM	DESCRIPTION	QTY.	CASE QTY.
7099	Dual Head	1/bx	10 bxs/cs
7100	Single Head	1/bx	10 bxs/cs

Dynarex Blood Pressure Kits provide an all-in-one solution for measuring blood pressure with precision. Each kit includes a durable, lightweight stethoscope and an easy-to-read sphygmomanometer for accurate readings.

- All-in-one kit provides essential tools for accurate blood pressure measurement
- Chrome-plated 300 mmHg gauge offers easy-to-read precision readings
- Durable, lightweight stethoscope features a non-chill anodized chest piece for patient comfort
- 22-inch PVC tubing provides flexibility and durability
- Air-release valve allows for smooth, controlled deflation
- Leatherette zippered carrying case offers secure storage and portability
- Available with single or dual-head stethoscope
- Includes: (1) Gauge, (1) Diaphragm (inside of gauge), (1) Valve, (1) Stethoscope Chestpiece, (1) Binaural, (1) Y-Shape Tube, (1) Cuff, (1) Bladder, (1) Bulb, (1) Bag
- Not made with natural rubber latex or DEHP

Single, Dual & Sprague Stethoscopes

ITEM	DESCRIPTION	QTY.	CASE QTY.
7110	Single Head	1/bx	50 bxs/cs
7111	Dual Head	1/bx	50 bxs/cs
7135	Sprague, Black	1/bx	20 bxs/cs
7136	Sprague, Blue	1/bx	20 bxs/cs
7137	Sprague, Red	1/bx	20 bxs/cs

Dynarex Single, Dual, and Sprague Stethoscopes are designed for the reliable detection of bodily sounds during patient assessments. Each stethoscope features a high-quality anodized aluminum chest piece with a non-chill ring for improved patient comfort. Molded ear tips and thick tubing minimizes background noises for greater acoustic clarity.

- Effectively detects high and low frequencies for comprehensive patient assessments
- Medical-grade anodized aluminum chest piece with non-chill rim for patient comfort
- 22" flexible tubing minimizes background noise and enhances sound clarity
- Molded ear tips provide a secure fit and improved acoustic performance
- Not made with natural rubber latex

Sphygmomanometers

ITEM	AGE	QTY.	CASE QTY.
7104	Infant (0-12 mos.)	1/bx	10 bxs/cs
7105	Toddler (Age 1-4)	1/bx	10 bxs/cs
7106	Child (Age 5-9)	1/bx	10 bxs/cs
7107	Medium (Arm)	1/bx	10 bxs/cs
7108	Large (Arm)	1/bx	10 bxs/cs
7109	X-Large (Thigh)	1/bx	10 bxs/cs

Dynarex Sphygmomanometers are designed for precise measurement of systolic and diastolic blood pressure, providing reliable diagnostics. Each aneroid sphygmomanometer features a chrome-plated gauge, air-release valve, adjustable strap, and a convenient nylon carrying case.

- Chrome-plated pressure gauge allows for clear, accurate readings
- Nylon cuff with adjustable hook-and-loop strip for a secure fit
- Thumb-activated air-release valve provides easy pressure control
- Includes calibration key and artery indicator labels for added precision
- Comes with a zip-closure nylon carrying case for convenient portability and easy storage
- Not made with natural rubber latex
- Available in Infant (7104); Toddler (7105); Child (7106); Adult/Medium (7107); Adult/Large (7108); and Adult/XL (7109)

Wood Applicators

ITEM	SIZE	QTY.	CASE QTY.
4323	6"	864/bx	12 bxs/cs

Dynarex Wood Applicators are durable applicators designed for effective specimen collection and medication dispensing. These premium-quality Applicators are ideal for use in a wide range of medical environments, including labs, hospitals, and home care.

- High-quality, splinter-free wooden applicators
- Designed for specimen collection as well as mixing and dispensing medication
- Crafted from durable, smoothly polished white birch
- Precision cut to uniform shape for optimal reliability
- Compact size ideal for use in laboratories, hospitals, long-term care facilities, and home care

Wooden Spoons

ITEM	SIZE	QTY.	CASE QTY.
4325	3"	1000/bx	10 bxs/cs

Dynarex Wooden Spoons are precision-cut, splinter-free utensils designed for blending and dispensing medication mixtures in medical and long-term care settings.

- Durable, splinter-free wooden spoons, precision cut for smooth handling
- Designed for blending and dispensing medication mixtures
- Ideal for hospitals, long-term care facilities, and home care

Tongue Depressors

ITEM	SIZE	QTY.	CASE QTY.
4311	5.5"	500/bx	10 bxs/cs
4312	6"	500/bx	10 bxs/cs
4313	5.5"	100/bx	10 bxs/cs
4314	6"	100/bx	10 bxs/cs

Dynarex Tongue Depressors are durable, smoothly polished wooden sticks designed to depress the tongue during medical examinations for an unobstructed view of the mouth and throat.

- Sturdy tongue depressors crafted from durable birch wood
- Feature smooth, polished edges to minimize risk of splintering for enhanced comfort and safety
- Precision-cut, uniform in size and color
- Available in junior and senior sizes
- Packaged in sterile peel-down pouches or bulk, non-sterile boxes
- Ideal for first aid kits, applying lotion and cosmetics, mixing solutions, crafts, and more

Ear Specula Tips

ITEM	SIZE	QTY.	CASE QTY.
7116	2.5 mm	850/bx	10 bxs/cs
7117	4.25 mm	850/bx	10 bxs/cs

Dynarex Ear Specula Tips are made from high-quality, medical-grade plastic for clear observation during ear examinations and procedures. The secure-fit design offers stability and patient comfort.

- Designed for clear observation of the ear canal during examinations and procedures
- High-quality, medical-grade plastic offers durability and safety
- Secure-fit design helps keep the specula stable during use
- Smooth, rounded edges enhance patient comfort
- Single-use design provides a hygienic and disposable option

Ear/Ulcer Bulb Syringe

ITEM	SIZE	CASE QTY.
4910	2 oz.	50/cs

Dynarex Ear/Ulcer Bulb Syringes are designed for safe aspiration and irrigation of ear canals, nasal passages, and small wounds. The smooth, tapered tip helps minimize irritation for gentle use.

- Designed to safely irrigate ear canal, nasal passages, and small wounds
- Smooth, tapered tip helps reduce irritation for gentle use
- Ribbed bulb design provides a secure grip during application
- Sterile and disposable to promote optimal hygiene
- 2 oz. capacity, ideal for first aid kits and clinical use
- Not made with natural rubber latex or DEHP

Plastic Thumb Forceps/Tweezers

ITEM	SIZE	QTY	CASE QTY.
4917	4.25"	250/bg	12 bgs/cs
4918	4.25"	100/bg	10 bgs/cs

DynaSafety Plastic Thumb Forceps/Tweezers are designed to reliably grasp and remove small objects such as splinters from the skin. The tweezers feature tapered ends with serrated tips for improved grip.

- Designed to effectively remove splinters and debris from skin and wound areas
- Features tapered ends and serrated tips for improved grip
- Anti-slip ridges help steady thumb and finger
- Simple non-locking design provides improved efficiency
- Crafted with sturdy plastic for reliable durability
- Ideal for first aid and a wide range of medical settings
- Disposable, not made with natural rubber latex
- 4917: Bulk packaging for easy distribution
- 4918: Individually wrapped for optimal hygiene

Cotton Balls

ITEM	SIZE	QTY.	CASE QTY.
3169	Large	1000/bg	2 bgs/cs
3170	Medium	2000/bg	2 bgs/cs

Dynarex Cotton Balls are premium-quality, absorbent 100% cotton puffs designed to effectively prep skin and cleanse wounds. These general-purpose swabs are ideal for a wide variety of uses and applications.

- Highly absorbent cotton balls designed to effectively prep skin and cleanse wounds
- 100% cotton puffs are soft on skin for optimal comfort
- Ideal for a wide range of uses, including clinical, cosmetic, and personal use
- Not made with natural rubber latex or DEHP

Cotton Tipped Plastic Applicator

ITEM	SIZE	QTY.	CASE QTY.
4321	Large Tip, 8"	100/bx	10 bxs/cs

Dynarex Cotton Tipped Plastic Applicators are premium-quality applicators designed for safe and effective specimen collection. Each Plastic Applicator features a soft cotton tip for improved comfort and a durable plastic body for optimal reliability.

- Premium applicators designed for safe, effective specimen collection from mouth or throat
- Crafted with soft cotton tip for improved comfort during sampling
- Constructed with a durable plastic body for optimal reliability
- Ideal for use in medical settings and for home self-sampling
- Not made with natural rubber latex

Code Blue Care Bandage Shears are designed with premium stainless-steel blades and a sharpened serrated edge to cut through gauze, tapes, clothing, and seatbelts. The high-quality shears feature contoured handles for a sturdy, reliable grip.

- Features hardened surgical stainless-steel blades and one sharp serrated edge
- Strong enough to cut through clothing and seatbelts for optimal reliability
- Contoured handles provide easy handling and improved grip
- Packed in individual polybags for optimal hygiene
- Can be sterilized through autoclaving process
- Not made with natural rubber latex
- Available in a variety of bold colors for easy identification
- Available in 5.5" and 7.5" sizes to suit a variety of needs
- 4190: Mini-scissors is 4" for easy storage in first-aid kits

Emergency Survival Rescue Blanket

ITEM	SIZE	CASE QTY.
3537	84" x 52"	120/cs

The Code Blue Care Emergency Survival Rescue Blanket is constructed from heat-reflective mylar foil to help insulate patients in emergency situations. The lightweight, non-bulky rescue blanket is easy to fold for convenient portability when quick response is required.

- Features heat-reflective mylar foil to help retain up to 90% of body heat
- Crafted from water-resistant materials to keep patients warm and dry
- Folds easily for compact storage and convenient portability
- Thermal material derived from insulation used in space exploration
- Individually bagged for optimal hygiene and efficient emergency response
- Not made with natural rubber latex or DEHP

Isolation Smock & Blanket

ITEM	DESCRIPTION	QTY.	CASE QTY.
3450	Blanket	1/bg	5 bgs/cs
3451	Smock	1/bg	5 bgs/cs

Dynarex Isolation Smocks and Blankets are designed to enhance the protection and privacy of patients. These highly durable smocks and blankets feature a smooth twill weave design for added comfort and improved resistance to moisture.

- Highly durable smocks and blankets designed to promote personal safety and modesty
- Twill weave design provides smoother feel and improved moisture-resistance
- Machine washable materials allow for easy cleaning and maintenance
- Ideal for a variety of institutional environments, including hospitals and mental health facilities
- 3451: Features hook-and-loop adjustments for easy customization and modesty tab for enhanced coverage

Overdose Emergency Kit Case

ITEM	CASE QTY.
4500	20/cs

The DynaSafety Overdose Emergency Kit Case is designed for safely storing Narcan nasal spray for swift response to opioid overdose situations. The compact, non-locking cabinet design allows for quick access and easy handling. The case comes with adhesive discs for convenient wall mounting.

- Designed to safely store naloxone nasal spray for rapid response to opioid overdose
- Non-locking, compact case allows for easy handling and quick access
- Constructed from premium-quality plastic materials for improved durability
- Adhesive discs allow for convenient wall mounting and medication attachment
- Includes clear instructions for medication usage
- Wall-mounting directions and paper template included for easy set-up
- Includes CDC-recommended medication guidelines
- Note: Case does NOT include medication

Allergy Emergency Kit Case

ITEM	CASE QTY.
4501	20/cs

The DynaSafety Allergy Emergency Kit Case is designed to store up to six allergy auto-injectors, providing convenient access during allergy emergencies. The non-locking case mounts easily to walls using included adhesive discs, offering a secure and simple setup without drilling.

- Stores up to six allergy emergency auto-injectors for immediate access
- Case is lightweight and non-locking for quick response
- Laminated epinephrine instructions offer clear usage guidance
- Includes adhesive discs to firmly hold medication inside the case
- Additional adhesive discs allow for securely mounting case to the wall
- Wall-mounting instructions and paper template allow for easy setup
- Constructed from high-quality resin for enhanced durability
- Note: Case does NOT include medication

Obstetrical Kits

ITEM	DESCRIPTION	CASE QTY.
4901	Boxed	10/cs
4902	Bagged	10/cs

Code Blue Care Obstetrical Kits are convenient, all-in-one kits designed to provide the necessary components for managing deliveries in pre-hospital and emergency settings.

- Designed to provide essential tools for managing emergency and pre-hospital deliveries
- Fully disposable for optimal safety and hygiene
- Includes: 1 Pair Sterile Nitrile Exam Gloves(Medium); 1 Drape Sheet; 6 Sterile Gauze Sponges; 1 Plastic Bag to Hold Placenta; 1 Underpad; 1 Receiving Blanket; 1 Sterile Bulb Syringe; 2 O.B. Towelettes; 1 Sterile Disposable Scalpel; 4 Disposable Towels; 2 Sterile Umbilical Clamps; 2 Twist Ties; 1 Sterile O.B. Pad; 2 Nylon Tie-Offs; 2 Alcohol Prep Pads
- 4901: Boxed kit is ideal for stacking and organization
- 4902: Packed in convenient polybag for optimal portability and compact storage

Quick-Release Reusable Tourniquet

ITEM	CASE QTY.
3138	100/cs

DynaSafety Quick-Release Tourniquets are premium elastic tourniquets designed to help control hemorrhaging in emergencies. These flexible tourniquets feature quick-release buckles that are easy to fasten, tighten, and adjust with just one hand.

- Designed with tight elastic to restrict blood flow in emergencies.
- Quick-release buckle allows for convenient one-handed operation and instant removal
- Clip mechanism secures elastic around arm or thigh and helps reduce pinching and jamming
- Measures 1" x 15¾" to easily accommodate adults and children
- Compact, lightweight band easily fits in first aid kits for optimal portability
- Not made with natural rubber latex or DEHP

Tourniquets

ITEM	SIZE	QTY.	CASE QTY.
3139	1" x 18"	250/bx	10 bxs/cs

The LabChoice Tourniquet is a premium compression band designed to help constrict blood flow during blood collection or in emergencies. The high-quality tourniquet is crafted from smooth, durable materials for optimal patient comfort and reliability.

- Designed to regulate blood flow during blood draws or in emergencies
- Features strong, tear-resistant elastic for optimal durability and reliability
- Crafted with smooth materials for enhanced patient comfort
- Measures 1" x 18" to easily accommodate adults and children
- Conveniently rolled and banded for easy kit-packing and quick portability
- Disposable, not made with natural rubber latex or DEHP

CPR Products

ITEM	DESCRIPTION	CASE QTY.
36020	CPR Shield w/ One-Way Valve	100/cs
36021	CPR Shield in Soft Case	100/cs
36022	CPR Rescue Mask Kit	25/cs

DynaSafety CPR Shields and Masks are designed to provide a physical barrier between the responder and patient, reducing the risk of cross-contamination during CPR. The CPR shield features a barrier filter and one-way valve that prevents patient blowback to the caregiver throughout administration.

- Serves as a protective barrier to prevent direct contact during CPR
- Features a one-way-valve to keep blowback from reaching the rescuer
- Designed from moldable plastic to effectively seal around the nose and mouth
- Individually poly bagged and constructed from disposable materials for optimal hygiene
- Not made with natural rubber latex or DEHP
- 36021: Features convenient key-ring pouch
- 36022: All-in-one kit includes mask, optional oxygen port, vinyl gloves, and hard case

ActiSplints™

3529	36" Flat	50/cs
3530	Finger	300/cs
3533	2" x 5 yd.	50/cs

DynaSafety ActiSplints™ are premium splints designed with a flexible aluminum core and outer foam layers to help support and stabilize a variety of fractures. These adaptable splints are radiolucent, breathable, and reusable.

- Conformable splints are designed to help stabilize fractures
- Aluminum core allows for optimal support and durability
- Breathable splints feature outer foam layers for improved comfort
- Radiolucent materials allow for unobstructed patient imaging
- Easy to cut with scissors for added customization
- Features water-resistant design for increased protection
- Fastens easily with most tapes or wraps
- Lightweight splints are ideal for first aid, emergencies, sports, and more
- Available in Rolled, Flat, and Finger Splint varieties
- 3533: ActiSplint with Sensi-Wrap features Rolled Splint (Red/Charcoal Gray) with Self-Adherent Bandage (Black) 2" x 5 yd.)
- Not made with natural rubber latex or DEHP

DynaLift™ Transport Units

ITEM	COLOR	CASE QTY.
5620	White	10/cs
5621	Black	10/cs

Code Blue Care DynaLift™ Transport Units are portable, fluid-resistant carrying devices designed to help securely transport patients in environments that are difficult to navigate or inaccessible to stretchers. DynaLift™ Transport Units are ergonomically designed and feature 14 durable handles for multiple handlers to safely lift patients in emergency situations.

- Designed for quick and efficient transport in emergency situations
- Ideal for difficult terrain, staircases, and areas inaccessible to stretchers
- Durable plastic materials support up to 1500 lb. for optimal reliability
- Lightweight, ergonomic design provides quick access and easy portability
- Features 14 rugged handles for secure lifting by multiple handlers
- Constructed from fluid-resistant materials to help prevent wear and tear
- Available in choice of black or white
- Not made with natural rubber latex

Deluxe Head Immobilizer

ITEM	COLOR	CASE QTY.
5628	Orange	5/cs

The Code Blue Care Deluxe Head Immobilizer (Orange) is designed to offer firm yet comfortable support when patient stabilization is required. The water-resistant head immobilizer features a sturdy foam baseplate, durable support pads, and thickly padded head and chin straps for additional stability.

- Designed with sturdy foam padding to provide secure head and neck support
- Features thick straps that secure to most backboards to keep patients stationary
- Heavily padded head and chin straps provide optimal stabilization
- Durable hook-and-loop closures help keep patients secured in place
- Ample openings provide access to ears and throat for improved communication
- Water-resistant, vinyl-coated covering cleans easily and helps prevent wear and tear
- Ideal for use by EMTs and first responders
- Not made with natural rubber latex or DEHP

Basic Quick-Release Head Immobilizer

ITEM	CASE QTY.
5629	5/cs

The Code Blue Care Basic Quick-Release Head Immobilizer is designed from lightweight foam to provide firm yet comfortable support when patient stabilization is required. The Basic Quick-Release Head Immobilizer easily unfolds beneath the patient's head and includes convenient head and chin strap attachments to help provide additional safety.

- Designed to provide quick, convenient, secure stabilization
- Foam cylinders quickly unroll to securely support head and neck
- Includes head and chin straps for added safety
- Compact design for optimal portability in emergency situations
- Water-resistant closed-cell foam provides added buoyancy
- Compatible with most backboards and c-collars for optimal adaptability
- Individually sealed for optimal hygiene
- Not made with natural rubber latex or DEHP

4369	4" x 22"	1/bx	10 bxs/cs

Dynarex Cervical Collars provide stability and support to help limit neck movement after an injury. The contoured, serpentine design allows the chin to rest comfortably on the collar.

- Supports the neck for sprains, strains, and mild muscle weakness
- Contoured, serpentine design provides comfort and allows the chin to rest on the collar
- Includes a 6" extension piece to accommodate larger sizes
- Comes with an extra synthetic cover that is machine washable

Heel Protector

ITEM	CASE QTY.
4340	10 pairs/cs

Dynarex Heel and Elbow Protectors provide soft, breathable protection for sensitive skin around the heels and elbows. Featuring extra padding and seamless construction, they help enhance comfort while allowing for easy application and removal.

- Extra padding with seamless construction provides comfort under the heel
- Reusable and washable for repeated use
- Breathable, water-resistant fabric helps promote air circulation and wicks moisture away
- Padded self-closure allows for easy application and removal

Arm Slings

ITEM	SIZE	QTY.	CASE QTY.
4347	Small	1/bx	10 bxs/cs
4348	Medium	1/bx	10 bxs/cs
4349	Large	1/bx	10 bxs/cs
4350	X-Large	1/bx	10 bxs/cs
4351	Universal	6/bx	6 bxs/cs

Dynarex Arm Slings provide comfortable and reliable support for arm, wrist, and hand injuries, aiding recovery from strains, sprains, or surgery. Designed for ease of use, these slings offer an adjustable fit for optimal support.

- Provides support for arm, wrist, or hand injuries, including cast support
- Designed to fit either arm, suitable for both adults and youths
- Adjustable sizing strap allows for a secure and customized fit
- Built-in thumb loop helps keep the hand correctly positioned
- 4347-4350: Cool Mesh Arm Slings feature breathable polyester mesh for increased ventilation and comfort
- 4351: Universal Arm Sling (19" x 18"), made from durable navy fabric for optimal dependability

Skin Protekt Geri-Sleeves

ITEM	SIZE	QTY.	CASE QTY.
1930	Small	1 pair/bx	10 bxs/cs

- 4707: Single-use blue bags with plastic mouth ring to control spillage
- 4710: Outer plastic layer provides additional hand protection
- 4712: Features absorbent pouch that gels up to 450 mL of liquids to reduce the risk of spills
- 4706: Clear refillable dispenser holds up to 24 bags, for use with blue emesis bags (4707)

Fluid Solidifier

ITEM	SIZE	CASE QTY.
1284	28 g	200/cs
1285	10 g	200/cs

DynaSafety Fluid Solidifiers are designed to quickly encapsulate and solidify liquid medical waste to promote optimal safety and reduce the risk of cross-contamination. The highly absorbent, chlorine-free powder is formulated to turn spills into a gel-like substance, simplifying the cleanup and disposal of potentially harmful bodily fluids. The Solidifier comes in convenient 10 g or 28 g pouches for easy portability and storage.

- Designed to turn hazardous bodily fluids into gel for optimal safety
- Fast-acting formula for quick cleanup and disposal
- Reduces the risk of cross-contamination
- Chlorine-free formula
- Conveniently-sized pouches for easy portability and kit packing
- 1284: 28 g pouch absorbs up to 1200 cc of liquid
- 1285: 10 g pouch absorbs up to 400 cc of liquid
- Bulk packed to ensure ample supply

Biohazard Scoop and Scraper

ITEM	CASE QTY.
4721	1000/cs

DynaSafety Biohazard Scoop and Scrapers are designed to aid in the safe removal of solidified liquid waste such as bodily fluids and spills. They are equipped with a removable scraper piece for easier, more efficient collection of waste materials. The biohazard scoop and scrapers are ideal for use with absorbent powders for a highly effective cleanup process.

- Designed for safe, effective cleanup of solidified bodily fluids and spills
- Features detachable scraper piece for efficient collection of waste materials
- Single use and disposable for optimal hygiene
- Ideal for use with absorbent powders such as DynaSafety Fluid Solidifiers (1284, 1285)
- Compact design allows for convenient storage

Fluid Disposable Bag

ITEM	CASE QTY.
4722	500/cs

DynaSafety Fluid Disposal Bags are designed to securely contain solidified liquid waste and spills for optimal hygiene. The bags are designed for use with absorbent powders and biohazard scrapers for a highly effective cleanup process.

- Designed for safe containment of solidified bodily fluids and spills
- Durable PE-coated paper bags provide enhanced leak-resistance
- Features integrated twist-tie at the top for secure closure
- Single use and disposable for optimal hygiene
- Designed for use with absorbent powders, such as DynaSafety Fluid Solidifier (1284, 1285)
- Compatible with DynaSafety Biohazard Scoop and Scraper (4721)

Biohazard Bags

Dispo Safety Sharps Containers are durable, puncture-resistant containers designed for the safe disposal of used medical needles and other medical instruments. The lightweight containers feature a transparent lid for visual monitoring, wide openings for horizontal drop, and a locking mechanism for improved security.

- Designed to safely dispose of used medical needles and sharps
- Crafted with puncture-resistant plastic for improved safety
- Transparent lid allows for visual monitoring of contents to avoid overfilling
- Wide openings allow for horizontal drop for maximum capacity to fill line
- Containers lock for safe final disposal
- Ideal for EMS, hospitals, nursing homes, clinics, and medical offices

ADVANTAGE PRESSURE ACTIVATED			
7134	28G, 1.8 mm	100/bx	10 bxs/cs

Dynarex Safety Lancets are pre-loaded, sterile lancets designed for capillary blood sampling and blood sugar monitoring. The tri-beveled needle retracts for added safety, reducing needlestick risks. Available in multiple gauge sizes.

- Designed for effective capillary blood sampling, diagnostic testing, and sugar-level monitoring
- Stainless-steel tri-bevel tip provides optimal patient comfort
- Protective, automatic retracting sheath helps reduce risk of accidental needlesticks
- Lancet is pre-loaded and ready-to-use; no additional device required
- 7122, 7124, & 7125: Button mechanism allows for controlled needle depth
- 7112, 7114, & 7115: Pressure activated design releases the safety lancet with gentle pressure
- Gamma-sterilized for optimal hygiene
- Color-coded by gauge size for easy identification
- Not made with natural rubber latex

Dynarex Insulin Syringes are high-quality hypodermic syringes designed to effectively deliver insulin. Each disposable syringe features a sterile, stainless-steel needle with a lubricated double-beveled tip for improved patient comfort. The transparent barrel is clearly marked with large-font numbering for accurate dosing and measurement.

- Premium syringe with stainless-steel needle designed to delivery insulin safely and effectively
- Needle is securely attached to help prevent accidental needle pop-off
- Features lubricated thin-walled, double-beveled needle for improved patient comfort
- Transparent barrel with large-font gradations allows for clear visualization
- For use with U-100 insulin
- Non-toxic and non-pyrogenic
- 6940-6949: Individually wrapped, sterile, and disposable for optimal hygiene
- 6950-6959: Convenient multi-pack for quick and efficient dispensing
- Not made with natural rubber latex

DynaSafety Blue Metal Detectable Woven Bandages are sterile fabric bandages designed to help cover and protect minor wounds. These blue woven Bandages are designed to be easily seen for optimal safety and feature an internal foil strip for reliable metal detection. Ideal for use in first aid, food industry, and pharmaceutical settings.

- Designed to provide effective coverage and protection of minor wounds
- Blue color allows bandages to be easily seen for optimal safety
- Internal foil strip provides reliable metal detection
- Designed from flexible woven materials for a comfortable, contoured fit
- Premium adhesive material holds bandage securely in place
- Ventilated to help provide an optimal healing environment
- Ideal for first aid, pharmaceutical, and food-industry environments
- Not MRI safe: Avoid use near MRI machines or facilities
- Sterile, individually wrapped for optimal hygiene
- Also available in bulk rolls for convenient and efficient kit packing
- Not made with natural rubber latex or DEHP
- 3764 & 3764-60: Constructed from high-quality plastic materials to help resist liquids

CurPro Stretch Gauze Bandages are high-quality, absorbent bandages designed for effective primary and secondary wound care in both professional and home environments. These stretch gauze bandages feature a knit design for optimal compression without constricting.

- High-quality bandages designed for primary and secondary wound care
- Knit design allows for optimal compression without constriction
- Highly absorbent materials help keep the wound site clean
- Requires minimal taping and conforms to body contours
- Non-linting and ravel-free design
- 4.1 yards length when stretched, multiple widths available
- Sterile and non-sterile varieties available
- Not made with natural rubber latex or DEHP

Tubular Elastic Dressing Retention Net

ITEM	SIZE	QTY.	CASE QTY.
3370	0.5" x 25 yd.	1/roll	20 rolls/cs
3371	1.5" x 25 yd.	1/roll	20 rolls/cs
3372	2.3" x 25 yd.	1/roll	20 rolls/cs
3373	3.2" x 25 yd.	1/roll	20 rolls/cs

CurPro Tubular Elastic Bandages are designed to provide secure and comfortable dressing retention without the need for adhesives, offering breathable and flexible support. Ideal for hard-to-bandage areas and frequent dressing changes.

- Versatile tubular elastic bandages designed to secure dressings and medical devices in place without adhesives
- Breathable fabric provides airflow for enhanced patient comfort
- Elastic construction conforms to body contours for a secure, comfortable fit
- Ideal for hard-to-bandage areas such as elbows, knees, and shoulders
- Soft material is gentle on fragile skin, ideal for repeated dressing changes
- Tape-free design reduces skin irritation and facilitates quick, easy dressing changes
- Customizable length for versatile use across various medical applications
- Reusable for single-patient applications
- Available in a variety of sizes to suit a range of needs
- Not made with natural rubber latex

Combine Pads

ITEM	SIZE	QTY.	CASE QTY.
STERILE			
3501	5" x 9"	20/bx	20 bxs/cs

NON-STERILE			
3511	5" x 9"		576/cs
3513	8" x 10"		432/cs

CurPro Combine Pads provide high absorbency for managing heavy-draining wounds, featuring a soft non-woven cover and a fluffy inner fill to effectively absorb fluids.

- Designed for use where high absorbency is needed for heavy-draining wounds
- Outer cover constructed of soft, non-woven material
- Fluffy inner fill absorbs and disperses fluids
- Sealed edges help to minimize the risk of leakage
- Sterile pads packed in peel-down pouches for convenient aseptic handling
- Pouches packed in open trays for easy access

Dyna-Stopper Trauma Dressing

ITEM	SIZE	QTY.	CASE QTY.
3535	3.5" x 5.5"	1/pk	60 pks/cs

The Code Blue Care Dyna-Stopper Trauma Dressing is a premium sterile bandage that provides absorbency, protection, and padding for a variety of wounds. The Dyna-Stopper Trauma Dressing is designed with one integrated gauze roll and one additional roll for optimal adaptability and adjustable pressure.

- Multi-purpose, sterile trauma dressing is designed to adjust compression to desired levels
- Includes removable gauze roll for additional pressure and coverage
- Absorbent gauze and cotton padding helps control bleeding and exudate
- Crafted from flexible cotton for easy adaptability as bandage, sling, or to secure a splint
- Dressing easily unfolds to 9" x 5½" for accommodate larger injuries
- Non-adherent padding won't stick to wound beds for gentle application and removal

Non-Adherent Pads

ITEM	SIZE	QTY.	CASE QTY.
3423	2" x 3"	100/bx	12 bxs/cs
3423UB-4	2" x 3"	4/bx	100 bxs/cs
3423-25	2" x 3"	25/bx	100 bxs/cs
3434	3" x 4"	100/bx	12 bxs/cs
3438	3" x 8"	50/bx	12 bxs/cs

DynaSafety Non-Adherent Pads are sterile cotton/polyester pads designed to effectively protect cuts, scrapes, and burns without sticking to the wound.

- Premium-quality, cotton/polyester pads designed to effectively protect cuts, scrapes, and burns
- Highly absorbent inner layer helps to prevent leakage
- Designed to minimize adherence to the wound
- Not made with natural rubber latex or DEHP

Wound Closure Strips

ITEM	SIZE	QTY.	CASE QTY.
3521	1/8" x 3"	50/bx	4 bxs/cs
3522	1/4" x 1 1/2"	50/bx	4 bxs/cs
3523	1/4" x 3"	50/bx	4 bxs/cs
3524	1/4" x 4"	50/bx	4 bxs/cs
3525	1/2" x 4"	50/bx	4 bxs/cs
3526	1" x 4"	50/bx	4 bxs/cs

CurPro Wound Closure Strips are crafted from non-woven materials reinforced with polypropylene fibers for enhanced durability. The sterile strips feature a premium adhesive for secure wound closure, making them ideal for use following early suture or staple removal.

- Flexible, non-woven strips designed for optimal wound support
- Ideal for use following early suture or staple removal
- Reinforced with polypropylene fibers to provide enhanced durability
- Premium adhesive material holds bandage firmly in place
- Ventilated construction offers improved breathability
- Sterile for optimal hygiene

Cotton Rolls

ITEM	SIZE	CASE QTY.
3166	1 lb.	25/cs

Dynarex Cotton Rolls are designed for gentle wound cleansing and medication application. Soft, highly absorbent cotton material is gentle on skin for improved comfort.

- Designed for gentle wound cleansing and medication application
- Crafted from soft, 100% cotton for optimal absorbency and comfort
- Easy to unwind or tear for added convenience
- Tightly interwoven layers provide improved protection
- Ideal for a variety of uses, including wound care, cast packing, and cosmetic use
- Not made with natural rubber latex or DEHP

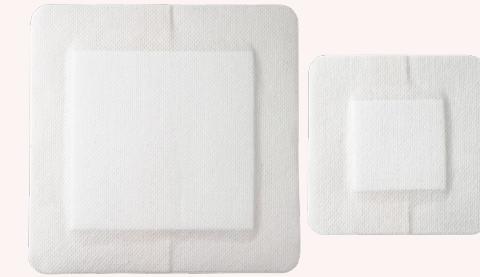

Packing Strips

ITEM	SIZE	CASE QTY.
PLAIN		
3401	1/4" x 5 yd.	12/cs
3402	1/2" x 5 yd.	12/cs
3403	1" x 5 yd.	12/cs
3404	2" x 5 yd.	12/cs
IODOFORM		
3411	1/4" x 5 yd.	12/cs
3412	1/2" x 5 yd.	12/cs

3492	2" x 3.5"	50/bx	6 bxs/cs
3493	4" x 4"	25/bx	6 bxs/cs
3494	6" x 6"	25/bx	6 bxs/cs

Dürma+ Island Dressings provide a protective, absorbent covering for wounds, featuring a gentle, non-stick surface and secure adhesive border. Each sterile dressing is individually packed for convenience.

- Soft, non-stick dressing with adhesive border for secure placement
- Provides excellent absorption and cushioning protection
- Ideal for use as a cover dressing after packing large, deep wounds
- Individually packed in peel-open pouches for optimal hygiene and convenience
- Not made with natural rubber latex

DynaWound Wound Cleanser Spray

ITEM	SIZE	CASE QTY.
3005	8 fl. oz. Bottle	24/cs

View Guard Transparent Dressing Rolls

ITEM	SIZE	CASE QTY.
3637	8" x 11 yd.	12/cs
3638	10" x 11 yd.	12/cs
3639	2" x 11 yd.	12/cs
3640	4" x 11 yd.	12/cs
3641	6" x 11 yd.	12/cs

Dürma+ View Guard Transparent Film Dressing Rolls are designed from flexible materials to conform to body contours, allowing movement without stressing skin. The rolls can be easily cut to desired shape or size for a variety of applications and needs.

- Premium transparent dressing designed to help cover and protect skin after needlework
- Crafted from flexible materials to conform to contours during movement without stressing skin
- Roll can be easily cut down into desired shape or size for different needs
- Ideal for use around tattoos, IV sites, surgical sites, incisions, and wounds
- Suggested use: leave on for up to 3 hours

View Guard Transparent Dressings

ITEM	SIZE	QTY.	CASE QTY.
3642	2 3/8" x 2 3/4"	100/bx	4 bxs/cs
3643	4" x 4 3/4"	50/bx	4 bxs/cs
3644	6" x 8"	10/bx	8 bxs/cs

Dürma+ View Guard Transparent Dressings are semi-permeable, sterile dressings designed to protect wounds, IV sites, and surgical incisions. These premium-quality, sheer dressings are designed to conform to body contours for a secure fit.

- Designed to help protect the skin, IV sites, and surgical sites
- Transparent design provides improved visualization of wound site
- Semi-permeable dressings allow air in while keeping moisture vapor and fluids out
- Conforms to body contours for a secure, comfortable fit
- Sterile, not made with natural rubber latex
- Suggested use: Leave on for up to 3 hours

Dressing Retention Sheet

ITEM	SIZE	CASE QTY.
3542	2" x 11 yd.	5/cs
3544	4" x 11 yd.	5/cs
3546	6" x 11 yd.	5/cs

Dürma+ Dressing Retention Sheets are soft, flexible, and feature a low-sensitivity adhesive for secure placement. The porous, water-resistant design allows full coverage of primary dressings in a single application.

- Low-sensitivity adhesive tape designed for secure, comfortable dressing retention
- Soft, flexible, non-woven fabric is ideal for securing appliances or dressings
- Porous structure is water-resistant and can cover an entire primary wound dressing conveniently in one application
- Linerless roll means faster application with no extra step for removing the paper release liner
- Not made with natural rubber latex

Sensi-Wrap Self-Adherent Bandage Rolls

Dynarex Sensi-Wrap Self-Adherent Bandage Rolls are lightweight bandages used in both human and veterinary care. Designed for effective compression, they help manage a variety of injuries by applying pressure to reduce swelling and minimize fluid buildup at the injury site.

- Designed with lightweight compression materials to help manage a variety of injuries
- Effectively maintains consistent compression without slipping to help reduce swelling
- Flexible, self-adhering bandages fasten securely without sticking to hair, skin, or clothing
- Non-woven, porous engineering allows skin to breathe to support optimal healing
- Tears easily without scissors for quick access in emergency situations
- Available in multiple colors to suit a variety of tastes

Pair Vinyl Gloves with Wallet, Powder-Free
Polylined Drape, 13" x 18"
Tape Measure, 36"
3 Alcohol Swabsticks
3 PVP Swabsticks
Non-Woven Split Sponge, 4" x 4"
Non-Adherent Sponge, 2" x 2"
Gauze Sponge, 2" x 2"
Gauze Sponge, 4" x 4"
Roll Transparent Dressing Tape, 3/4" x 18"
Transparent Dressing, 4" x 4 3/4"
Dressing Change Label

CurPro Dressing Change Trays provide an efficient solution for aseptic dressing changes. Each sterile tray includes a complete set of components arranged in procedural order, streamlining the process and reducing preparation time. Designed for single-use applications, these disposable kits help maintain a sterile environment while supporting infection control practices in medical settings.

- Sterile kit designed to facilitate aseptic dressing changes
- Components arranged in procedural sequence to enhance efficiency
- Not made with natural rubber latex
- Contents: (1) Instructions; (1) Non-Woven Face Mask; (1) Pair Vinyl Gloves with Wallet, Powder Free; (1) Polylined Drape, 13" x 18"; (1) Tape Measure, 36"; (3) Alcohol Swabsticks; (3) PVP Swabsticks; (1) Non-Woven Split Sponge, 4" x 4"; (1) Non-Adherent Sponge, 2" x 2"; (1) Gauze Sponge, 2" x 2"; (1) Gauze Sponge, 4" x 4"; (1) Roll Transparent Dressing Tape, 3/4" x 18"; (1) Transparent Dressing, 4" x 4 3/4"; (1) Dressing Change Label

INSTRUCTIONS FOR USE:
 1. Wash your hands.
 2. Put on face mask.
 3. Put on gloves.
 4. Remove old dressing.
 5. Carefully open the alcohol swabstick package. Apply to area around insertion site. Do not apply to skin. Do not apply to the wound. DO NOT GO OVER ONE AREA TWICE WITH THE SAME SWABSTICK. Repeat with remaining swabsticks.
 6. Open the PVP iodophor package. Apply as #5 above. Repeat with all three swabsticks.
 7. Allow PVP iodophor to dry (this will take approximately 1 minute).
 8. If the insertion site is heavily bleeding, apply a gauze pad directly over the insertion site. The dressing over the dressing may be covered by a gauze pad. If feasible, a small compact dressing may be applied under the transparent dressing (use the dressing provided as you would a roll dressing).
 9. Apply the transparent dressing as instructed.

Reorder No. 4705

Medicaine Insect Bite (Ampule)

ITEM	CC	QTY.	CASE QTY.
1407	0.6 cc	10/bx	50 bxs/cs

DynaSafety Medicaine Sting & Bite Ampules are designed to provide temporary relief from insect bites and stings. These Ampules feature pre-measured unit dosing, reliable hermetic seals, and saturated tips.

- Designed to provide temporary relief from insect bites and stings
- Convenient, pre-measured unit dosing for accurate dispensing
- Features saturated tip for effective topical application
- Reliable hermetic seal helps protect shelf life
- Not made with natural rubber latex or DEHP

Ammonia Inhalants (Ampule)

ITEM	CC	QTY.	CASE QTY.
1401	0.33 cc	10/bx	50 bxs/cs

DynaSafety Ammonia Inhalants are fast-acting respiratory stimulant ampules formulated to aid in responding to fainting incidents.

- Fast-acting respiratory stimulant ampules formulated to respond to fainting incidents
- Precise dosing measurements provide consistent and reliable results
- Ampules are easy to use by simply crushing and inhaling for fast relief
- Hermetic sealing helps extend storage shelf life
- Individually packaged doses allow for accurate and effective administration
- Vital component of any comprehensive first aid kit

Saline Nasal Sprays

ITEM	SIZE	CASE QTY.
1410	1.5 fl. oz.	72/cs
1411	3 fl. oz.	72/cs

WeCare Saline Nasal Spray offers fast acting relief of nasal dryness and irritation. This convenient, non-medicated spray provides soothing hydration, ideal for daily use by both children and adults.

- Non-medicated saline nasal spray provides fast-acting moisture to relieve dryness and discomfort
- Soothes and hydrates nasal passages affected by dry air, pollution, smoke, or allergies
- Contains sodium chloride for effective nasal hydration
- Convenient pump spray allows for precise application and dosage
- Safe for daily use by both children and adults
- Compact pump bottle for on-the-go convenience
- Suitable for air travel and easy to store in bags or first aid kits
- Available in a 3 oz. size for extended use

Nasal Sponges, Foil Pack

ITEM	QTY.	CASE QTY.
3168	3/bx	100 bxs/cs

Dynarex Nasal Sponges are highly absorbent plugs designed to help manage and control nose bleeds. The soft, flexible sponges are designed to absorb blood effectively with minimal discomfort.

- Soft, flexible design helps manage nosebleeds while providing optimal comfort
- Highly absorbent foam sponge expands to provide gentle pressure for effective blood absorption
- Individually wrapped to maintain hygiene and reduce the risk of contamination
- Suitable for post-operative care
- Fiber-free and non-toxic for optimal safety
- Not made with natural rubber latex

Eye Magnet with Loop

ITEM	QTY.	CASE QTY.
4203	25/bx	4 bxs/cs

The Code Blue Care Eye Magnet is designed to help remove metallic and non-metallic objects from the eye with minimal intrusion.

- Convenient, dual-function tool features magnet on one end and nylon loop at the other end
- Designed to help remove metallic and non-metallic objects from the eye with minimal intrusion
- Handles feature rubber grips for secure handling
- Detachable tips fit into tube base for easy portability
- Ideal for first responders and emergency rooms

Eye Cups

ITEM	QTY.	CASE QTY.
3380	6/vial	50 vls/cs

DynaSafety Eye Cups in a Vial are convenient, disposable eye cups designed to flush irritants from the eyes. Sealed in a vial and crafted from molded plastic, these eye cups are ideal for use with a variety of eye wash solutions.

- Designed to safely flush sand, dirt, and other irritants from the eyes
- Packaged in sealed vial to prevent tampering; 6 cups per vial
- Ideal for use with a variety of eye wash solutions
- Crafted from molded plastic to help eliminate leakage
- Opaque color provides improved visibility
- Recommended fill level for eye wash: 6 mL
- Disposable, not made with natural rubber latex or DEHP

Eye Pad Strips

ITEM	SIZE	CASE QTY.
3527	1 cm x 12 cm	2000/cs

DynaSafety Eye Pad Strips are high-quality adhesive closures designed to hold DynaSafety Oval Eye Pads comfortably and securely in place.

- Designed to hold Dynarex Oval Eye Pads comfortably and securely in place
- Premium-grade adhesive allows for a secure hold
- Non-woven material helps prevent fraying and unraveling
- Not made with natural rubber latex

Oval Eye Pads

ITEM	SIZE	QTY.	CASE QTY.
3359	1 5/8" x 2 5/8"	1000/cs	
3360	1 5/8" x 2 5/8"	50/bx	12 bxs/cs
3361UB-2		2/bx	100 bxs/cs

DynaSafety Oval Eye Pads are sterile, oval-shaped pads designed to fit in the contours of the eye cavity. These premium eye pads are packed with cotton fill and covered with a soft mesh for optimum comfort. The eye pads can be held in place by DynaSafety Eye Pad Strips.

- Oval-shaped pads securely fit in contours of eye cavity for optimal protection
- Designed with cotton fill and soft mesh outer cover to provide improved comfort
- Sterile, single-use pads help to promote optimal hygiene
- Ideal for medical settings, schools, and first aid kits
- Can be held in place by DynaSafety Eye Pad Strips

Waterproof Adhesive Tape (Plastic Spool)

ITEM	SIZE	CASE QTY.
3651	1/2" x 2.5 yd.	288/cs
3652	1" x 2.5 yd.	48/cs
3653	1/2" x 5 yd.	288/cs
3654	1" x 5 yd.	48/cs
3655	1/2" x 10 yd.	144/cs
3656	1" x 10 yd.	72/cs
3657	1", 5/8", 3/8" x 5 yd.	72/cs

DynaSafety Waterproof Adhesive Tape is designed to effectively protect wounds from external moisture. The tape features a strong adhesive for a secure hold and a spooled design for added convenience.

- Premium-quality waterproof tape designed to protect wounds and dressings from moisture
- Strong adhesive securely holds dressings in place
- Spooled design allows for easy measuring, cutting, and application
- Laminated cloth allows for even tearing and easy sizing for a custom fit
- Ideal for first aid kits, sports, outdoor activities, and home use
- 3657: Tri-Cut adhesive tape features three different widths on one spool
- Not made with natural rubber latex or DEHP

Athletic Tape

ITEM	SIZE	CASE QTY.
3596	1 1/2" x 15 yd.	32/cs
3597	2" x 15 yd.	24/cs

CurPro Athletic Tape provides reliable support for sports-related injuries. Made from durable, breathable cloth, this tape offers secure adhesion for long-lasting performance.

- Designed to provide support to help protect joints from sprains and injuries
- High-quality cloth tape provides improved strength and reliability
- Premium adhesive material holds tape securely in place
- Porous fabric offers optimum breathability
- Not made with natural rubber latex or DEHP

Non-Woven Tape on Spool

ITEM	SIZE	QTY.	CASE QTY.
3580	1/2" x 5 yd.	12/bg	36 bgs/cs
DynaSafety Non-Woven Tape on Spool is high-quality adhesive tape designed for a wide range of uses, including binding and securing wound dressings. This breathable tape is encased in a convenient plastic spool for easy dispensing.			
<ul style="list-style-type: none"> – Versatile, multi-purpose tape is designed for a range of uses, including securing wound dressings and supporting splints – Features strong adhesive for a secure hold – Convenient plastic spool allows for easy measuring, cutting, and dispensing – Breathable non-woven material helps promote an optimal healing environment – Constructed to stretch and conform to body contours for improved comfort – Designed for easy removal for minimal discomfort – Ideal for first aid kits, surgical settings, and home use – Not made with natural rubber latex or DEHP 			

Waterproof Adhesive Tape

ITEM	SIZE	QTY.	CASE QTY.
3581	1/2" x 2.5 yd.	500/cs	
3581UB-2	1/2" x 2.5 yd.	2/bx	100 bxs/cs
3582	1" x 2.5 yd.	500/cs	
3582-10	1" x 10 yd.	168/cs	

DynaSafety Waterproof Adhesive Tape is designed to effectively protect wounds from external moisture. The Tape features strong adhesive for a secure hold and easy-tear laminated cloth for efficient application and sizing.

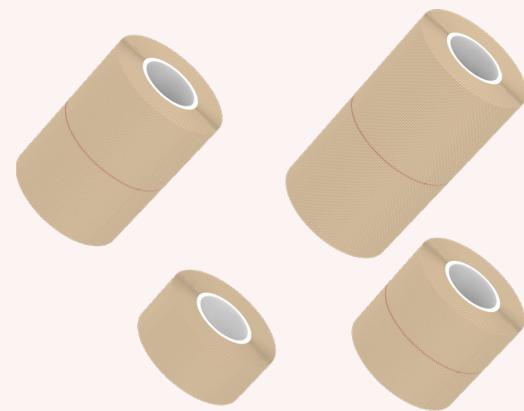

- Premium-quality waterproof tape designed to protect wounds and dressings from moisture
- Strong adhesive securely holds dressings in place
- Laminated cloth allows for even tearing and easy sizing for a custom fit
- Ideal for first aid kits, sports, outdoor activities, and home use
- Not made with natural rubber latex or DEHP

Porous Tape

ITEM	SIZE	QTY.	CASE QTY.
3586	1/2" x 10 yd.	24/bx	12 bxs/cs
3587	1" x 10 yd.	12/bx	12 bxs/cs
3588	2" x 10 yd.	6/bx	12 bxs/cs
3589	3" x 10 yd.	4/bx	12 bxs/cs

CurPro Porous Tape is a strong, breathable cloth tape designed to provide optimal support and effective adhesion.

- Premium cloth tape features high tensile strength for optimal support
- Porous fabric offers improved breathability
- Crafted with premium adhesive to hold tape securely in place
- Tears easily without the use of scissors for added convenience
- Conformable tape provides improved adherence to body contours
- Single use and disposable for optimal hygiene
- Not made with natural rubber latex or DEHP

Elastic Tape

ITEM	SIZE	QTY.	CASE QTY.
3667	1" x 5 yd.	12/bx	12 bxs/cs
3668	2" x 5 yd.	6/bx	12 bxs/cs
3669	3" x 5 yd.	4/bx	12 bxs/cs
3670	4" x 5 yd.	6/bx	6 bxs/cs

CurPro Elastic Tape is designed to help support muscular and joint-related injuries. The tape is constructed from flexible, porous materials for improved comfort and a secure fit.

- Premium-quality tape designed to support muscle and joint-related injuries
- Porous fabric allows skin to breathe
- Elastic materials help ensure a secure, comfortable fit
- Ideal for use where pressure dressings requiring elasticity are prescribed
- Not made with natural rubber latex or DEHP

Clear Surgical Tape

ITEM	SIZE	QTY.	CASE QTY.
3571	½" x 10 yd.	24/bx	12 bxs/cs
3572	1" x 10 yd.	12/bx	12 bxs/cs
3573	2" x 10 yd.	6/bx	12 bxs/cs
3574	3" x 10 yd.	4/bx	12 bxs/cs
3560	1" x 1.5 yd.	100/bx	5 bxs/cs

CurPro Clear Surgical Tape is a premium transparent tape designed to stretch to body contours. This porous, adhesive tape is constructed for enhanced comfort and efficiency. Ideal for securing dressings, catheters, and IV tubing.

- Designed to stretch and conform to body contours
- Transparent film allows clear visualization of the skin
- Porous materials provide improved breathability
- Crafted with premium adhesive to hold tape securely in place
- Ideal for securing dressings, IV tubing, and catheters
- Not made with natural rubber latex

Paper Surgical Tape

ITEM	SIZE	QTY.	CASE QTY.
3551	½" x 10 yd.	24/bx	12 bxs/cs
3552	1" x 10 yd.	12/bx	12 bxs/cs
3553	2" x 10 yd.	6/bx	12 bxs/cs
3554	3" x 10 yd.	4/bx	12 bxs/cs
3557	1" x 1.5 yd.	100/bx	5 bxs/cs

CurPro Paper Surgical Tape is a premium-quality tape made of porous paper materials for improved breathability and effective skin adhesion.

- Designed to provide effective skin adhesion
- Highly porous paper material allows improved breathability
- Tears easily for convenient use
- Not made with natural rubber latex

Cloth Surgical Tape

ITEM	SIZE	QTY.	CASE QTY.
3561	½" x 10 yd.	24/bx	12 bxs/cs
3562	1" x 10 yd.	12/bx	12 bxs/cs
3563	2" x 10 yd.	6/bx	12 bxs/cs
3564	3" x 10 yd.	4/bx	12 bxs/cs
3558	1" x 1.5 yd.	100/bx	5 bxs/cs

CurPro Cloth Surgical Tape is a breathable, conformable tape designed to secure bandages and dressings to wound sites.

- Designed to securely attach bandages and dressings to skin around wounds
- Breathable cloth material helps promote an optimal healing environment
- Lightweight construction offers added comfort
- Tears easily without the use of scissors for added efficiency
- Conformable tape helps ensure a secure fit
- Not made with natural rubber latex or DEHP

Finger Pulse Oximeter

ITEM	AGE	QTY.	CASE QTY.
36400	Adult	1/bx	10 bxs/cs
36402	Pediatric	1/bx	10 bxs/cs

Resp-O₂ Fingertip Pulse Oximeters are high-quality devices designed to efficiently measure pulse rate (PR) and blood oxygenation levels (SpO₂). The fingertip pulse oximeters are available in adult and pediatric sizes for optimal comfort. These reusable oximeters are constructed from durable plastic materials for optimal reliability.

- Designed to provide effective measurement of pulse rate and blood oxygenation levels
- Large font display allows for accurate reading
- Constructed from durable materials for reliable performance
- Includes convenient lanyard for easy portability
- 36400: Adult size, suitable for all ages (finger thickness 9-22 mm)
- 36402: Pediatric size (ages 3 and up) with child-friendly teddy-bear design (finger thickness 7-15 mm)
- Not made with natural rubber latex or DEHP

Resp-O₂ Pediatric Nebulizers

ITEM	DESCRIPTION	QTY.	CASE QTY.
34402	Bear	1/bx	4 bxs/cs
34403	Dog	1/bx	4 bxs/cs
34404	Pig	1/bx	4 bxs/cs
34405	Penguin	1/bx	4 bxs/cs
CARRY BAG			
34406		4/cs	
NEBULIZER WITH BAG			
34402-W/BAG	Bear	1/bx	4 bxs/cs
34403-W/BAG	Dog	1/bx	4 bxs/cs
34404-W/BAG	Pig	1/bx	4 bxs/cs
34405-W/BAG	Penguin	1/bx	4 bxs/cs

Resp-O₂ Pediatric Compressor Nebulizers are lightweight medical devices in child-friendly cases that allow for easy inhalation of prescribed medication, specifically designed for children. These pediatric nebulizer kits are used for the treatment of asthma, allergies, and other respiratory ailments.

- Small Volume Nebulizer (SVN)
- Includes Child Mask, Infant Mask, inhalation mouthpiece, t-type connector, nebulizer bottle, air filter (5 pc.), inhalation tubing
- 3-Year Limited Warranty
- Available in kid-friendly designs: Bear (34402), Dog (34403), Pig (34404), Penguin (34405)
- Pediatric Nebulizer Carry Bag also available (34406)

Resp-O₂ Nebulizers

ITEM	DESCRIPTION	QTY.	CASE QTY.
34400	Elite w/Storage	1/bx	4 bxs/cs
34401		1/bx	6 bxs/cs

Resp-O₂ Compressor Nebulizers convert prescribed liquid medications into an inhalable mist to support the treatment of asthma, allergies, and other respiratory conditions. Designed for use by both adult and pediatric patients.

- Small Volume Nebulizer (SVN)
- Converts prescribed medication into an aerosol mist for easy inhalation
- Includes air tube, mouthpiece, filters (5 pcs), adult mask and child mask
- 34400: Designed with a convenient storage compartment
- 3-Year Limited Warranty

Electronic Pipettes

ITEM	SIZE	CASE QTY.
SINGLE CHANNEL		
40100	5-50 μ l	1/cs
40101	30-300 μ l	1/cs
EIGHT CHANNEL		
40110	0.5-10 μ l	1/cs
40111	10-100 μ l	1/cs
40112	30-300 μ l	1/cs

LabChoice Electronic Pipettes are designed to promote improved accuracy and precision in the repetitive handling of liquids. These lightweight pipettes are motorized to enable enhanced speed and ensure consistent outcomes.

- Motorized piston drive allows for improved accuracy and consistent results
- Lightweight, ergonomic design helps to reduce the risk of RSI (repetitive strain injury)
- Clearly visible digital display allows for clear visualization of volume settings
- Features multiple pipetting modes for a variety of needs
- Ambidextrous for optimal versatility
- Includes USB cable and charging holder with adhesive for easy shelf or wall mounting
- 40100, 40101: Single-channel model
- 40110, 40111, 40112: Eight-channel
- Calibration certificate included

Mechanical Pipettes

ITEM	SIZE	CASE QTY.
SINGLE CHANNEL		
40120	200-1000 μ l	1/cs
40121	0.5-5 mL	1/cs
EIGHT CHANNEL		
40130	50-300 μ l	1/cs
TWELVE CHANNEL		
40131	50-300 μ l	1/cs

LabChoice Mechanical Pipettes are designed to deliver accurate and precise liquid transfers while reducing strain and fatigue. These pipettes feature an ergonomic design for optimal comfort and a padded ejector button to help minimize hand vibration.

- Designed to provide accurate and precise liquid transfers
- Contoured handle and finger-hook help reduce strain and optimize comfort
- Reliable volume adjustment with secure lock allows for improved accuracy
- Padded ejector button helps minimizes vibration
- Soft spring system allows for improved precision and decreased hand fatigue
- Includes a holder with adhesive for easy shelf mounting
- Calibration certificate included

Pipette Filler

ITEM	DESCRIPTION	CASE QTY.
FOR SEROLOGICAL PIPETTES		
40140	Rechargeable	1/cs

LabChoice Pipette Fillers are designed for use with serological pipettes to help improve efficiency and reduce fatigue during extended sessions. These lightweight, rechargeable pipette fillers are constructed for easy one-handed operation for added convenience.

- Lightweight, ergonomic design allows for longer pipetting and reduced fatigue
- Easy one-handed operation for improved efficiency
- Touch-sensitive, concave triggers provide improved speed control
- Large LCD display provides visual confirmation of battery level and speed settings
- Rechargeable lithium-ion battery provides over 8 hours of intermittent usage
- Gravity dispense with blow-out for TD pipettes
- Separate aspirate and dispense speed controls
- Full volume range of 0.1 to 100 mL
- Compatible with a variety of serological pipette sizes
- Calibration certificate included

Serological Pipettes

ITEM	SIZE/COLOR	QTY.	CASE QTY.
40220	1 mL, Yellow	100/bg	5 bgs/cs
40221	2 mL, Green	100/bg	5 bgs/cs
40222	5 mL, Blue	50/bg	4 bgs/cs
40223	10 mL, Orange	50/bg	4 bgs/cs
40224	25 mL, Red	50/bg	4 bgs/cs
40225	50 mL, Purple	25/bg	4 bgs/cs

LabChoice Serological Pipettes are designed to accurately measure, transfer, and dispense liquids. These transparent pipettes offer clear visualization of contents and feature clearly marked graduations for improved precision. The pipettes are equipped with an aerosol barrier plug for added protection from contamination.

- Designed to deliver accurate and precise liquid handling
- Reverse and negative graduations allow for improved precision
- Equipped with aerosol barrier plug to help minimize the risk of contamination
- Transparent plastic materials allow for clear visualization of samples
- Color-coded by volume for easy size identification
- Compatible with most types of pipette controllers
- Anti-drip tips allow for optimal efficiency

Pipette Stands

ITEM	DESCRIPTION	CASE QTY.
40150	Linear	1/cs
40151	Carousel	1/cs

LabChoice Pipette Stands are designed to support and hold pipettes in an upright position to help minimize the risk of cross-contamination. These high-quality polyethylene stands are made with a sturdy base to reliably support up to six pipettes.

- Designed to hold pipettes upright to minimize the risk of cross-contamination
- Crafted from high-quality polyethylene for optimal durability
- Sturdy base reliably holds up to six pipettes
- Compatible with both single and multichannel pipettors
- Linear and Carousel styles available

Reagent Reservoirs

ITEM	DESCRIPTION	QTY.	CASE QTY.
25 ML			
41120	Sterile	1/pc	200 pcs/cs
41121	Non-Sterile	100/bg	5 bgs/cs

LabChoice Reagent Reservoirs are premium-quality, polypropylene reservoirs engineered to facilitate the transfer of liquids in laboratory settings. These white-colored reservoirs are designed to provide easy visibility of contents. The reservoirs feature textured exteriors for an enhanced grip and pour spouts for efficient emptying of liquids.

- Premium reagent reservoirs designed for effectively handling and dispensing liquids
- Crafted from high-quality polypropylene for optimal stability and durability
- White color allows for improved visibility of solutions
- Low-profile structure designed to accommodate small-volume, robotic tips
- Angled interior facilitates retrieval of liquids
- Pour spouts on corners allow for easy emptying and reduced risk of spillage
- Crafted with textured surfaces to help ensure a secure grip
- Compatible for use with multichannel pipettes

Universal Pipette Tips with Filter

ITEM	SIZE	QTY.	CASE QTY.
96 TIPS PER RACK			
40170	0.5-10 μ l	10 racks/bx	5 bxs/cs
40171	1.0-20 μ l	10 racks/bx	5 bxs/cs
40172	10-100 μ l	10 racks/bx	5 bxs/cs
40173	10-200 μ l	10 racks/bx	5 bxs/cs
40174	100-1000 μ l	10 racks/bx	5 bxs/cs

LabChoice Pipette Tips with Filter are high-quality tips designed to fit a wide variety of pipette models. These durable tips are made from premium plastic materials for improved strength and reliability. The tips feature an integrated filter to help reduce the risk of cross-contamination.

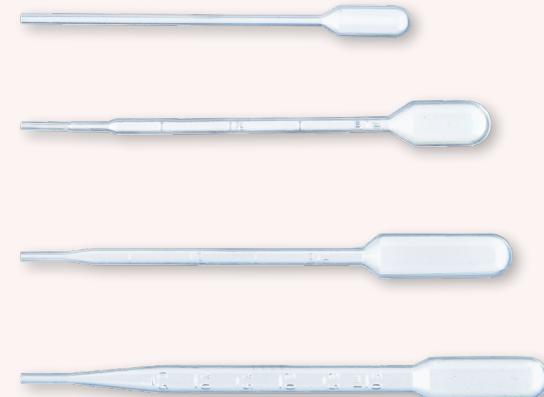

- Crafted from premium-quality polypropylene for optimal durability and performance
- Integrated filter acts as a barrier to help prevent cross-contamination of samples
- Designed to fit most multichannel and single pipettors
- Sterile, does not contain DNase, RNase, and pyrogens

Universal Pipette Tips without Filter

ITEM	SIZE	QTY.	CASE QTY.
96 TIPS PER RACK			
40160	0.5-10 μ l	10 racks/bx	5 bxs/cs
40163	100-1250 μ l	10 racks/bx	5 bxs/cs

LabChoice Pipette Tips feature a universal design to fit a wide variety of single and multichannel pipette models. These durable tips are made from premium plastic materials for improved strength and reliability.

- Crafted from premium-quality polypropylene for optimal durability and performance
- Designed to fit most multichannel and single pipettors
- Sterile, does not contain DNase, RNase, and pyrogens

Graduated Transfer Pipettes

ITEM	SIZE	QTY.	CASE QTY.
NON-STERILE			
40200	1.5 mL, Pediatric	500/bg	10 bgs/cs
40202	3 mL, Small Bulb	500/bg	10 bgs/cs
40204	5 mL, Large Bulb	500/bg	10 bgs/cs
40206	7 mL, Large Bulb	500/bg	10 bgs/cs
STERILE (INDIVIDUALLY WRAPPED)			
40201	1.5 mL, Pediatric	100/bg	5 bgs/cs
40203	3 mL, Small Bulb	100/bg	5 bgs/cs
40205	5 mL, Large Bulb	100/bg	5 bgs/cs
40207	7 mL, Large Bulb	100/bg	5 bgs/cs

LabChoice Graduated Transfer Pipettes are soft, pliable transfer devices designed for safe and efficient liquid sample transfers. These pipettes are made from non-slippery polyethylene for an improved grip. The pipettes feature an integrated bulb mechanism for efficient suction, and molded graduation marks for improved precision.

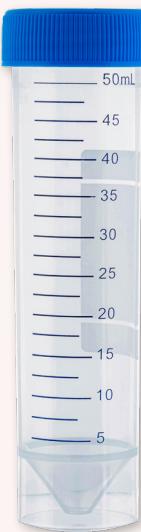

- Soft, pliable pipettes designed to efficiently transfer liquid samples
- Constructed from non-slippery, low-density polyethylene for enhanced grip
- Molded, fade-resistant graduations allow for improved accuracy
- Bulb mechanism provides efficient liquid draw
- Crafted from chemically inert materials
- Disposable to help prevent cross-contamination

Centrifuge Tubes

ITEM QTY.	SIZE	QTY.	CASE
NON-STERILE			
42100	15 mL	25/bg	20 bgs/cs
42102	50 mL	25/bg	20 bgs/cs
NON-STERILE, SELF-STANDING			
42104	50 mL	25/bg	20 bgs/cs
STERILE			
42101	15 mL	25/bg	20 bgs/cs
42103	50 mL	25/bg	20 bgs/cs
STERILE, SELF-STANDING			
42105	50 mL	25/bg	20 bgs/cs

LabChoice Centrifuge Tubes are premium laboratory vessels designed to securely hold liquids during centrifugation. Crafted from premium plastic materials for optimal durability, these autoclavable tubes feature a writing panel for easy identification and screw cap for secure closure.

Microcentrifuge Tubes

ITEM	SIZE	QTY.	CASE QTY.
NON-STERILE			
42120	0.5 mL	1000/bg	10 bgs/cs
STERILE			
42121	1.5 mL	500/bg	10 bgs/cs
42122	2 mL	500/bg	10 bgs/cs
42123	5 mL	200/bg	10 bgs/cs

LabChoice Microcentrifuge Tubes are premium laboratory vessels designed to securely hold small volumes of liquid during centrifugation. Crafted from premium plastic materials for optimal durability, these autoclavable tubes feature a writing area for easy identification and flip-top snap cap for secure closure.

- High-quality tubes designed to reliably hold liquids during centrifugation procedures
- Crafted from polypropylene for optimal durability and reliability
- Flat top, screw cap helps provide secure closure
- Clear plastic offers optimal clarity for easy monitoring of contents
- Features white writing panel for easy labeling and identification
- Printed, easy-to-read graduated marks allow for precise measurement
- Designed to withstand forces up to 12,000 RCF
- Autoclavable and freezeable
- Does not contain DNase, RNase, DNA, or pyrogens
- Available in sterile and non-sterile varieties
- 42100-42103: Convenient conical bottom aids in gathering solid or heavier components
- 42104-42105: Self-standing design allows for efficient handling and storage

- High-quality tubes designed to securely hold small volumes of liquid during centrifugation
- Crafted from premium polypropylene for optimal durability and improved chemical resistance
- Conical bottom helps collect any solid or heavier parts of the sample for enhanced efficiency
- Flip-top snap cap helps provide secure closure
- Clear plastic offers optimal clarity for easy monitoring of contents
- Molded graduation marks allow for precise measurement
- Features frosted writing area for easy labeling and identification
- Designed to withstand forces up to 15,000 RCF
- Freezeable
- 42123: Does not contain DNase, RNase, DNA, or pyrogens
- Available in sterile and non-sterile varieties

Centrifuge Tubes Multi-Function Rack

ITEM	SIZE	CASE QTY.
42130	Fits 15 mL and 50 mL Tubes	50/cs

LabChoice Multi-Function Racks are designed to securely hold a variety of tubes for increased organization in laboratory settings. These durable racks feature a 4-way design to support multiple tube sizes for optimal versatility, and an interlocking system for efficient rack connection.

- Designed to provide stable support and improved organization of centrifuge tubes, culture tubes, and test tubes
- Versatile racks feature 4-way design to accommodate a wide range of tube sizes
- Interlocking system allows for efficient rack connection
- Crafted from premium polypropylene for optimal durability
- Autoclavable

Reversible Microcentrifuge Tube Rack

ITEM	SIZE	CASE QTY.
42134	60 Holes	50/cs

LabChoice Reversible Microcentrifuge Tube Racks feature a double-sided design to provide optimal versatility. These durable polypropylene racks are engineered to securely hold microcentrifuge tubes in sizes 0.5 mL and 1.5 mL.

- Double-sided racks designed for enhanced support for 0.5 mL and 1.5 mL microcentrifuge tubes
- Crafted from premium polypropylene for optimal durability
- Features a stackable design with a skirted profile
- Engineered to withstand temperatures ranging from -70°C to 121°C
- Autoclavable and freezable

Transport Swabs

ITEM	TIP	QTY.	CASE QTY.
WOODEN SHAFT (INDIVIDUALLY WRAPPED)			
41150	Cotton Tip	100/bg	10 bgs/cs
41151	Viscose Tip	100/bg	10 bgs/cs
PLASTIC SHAFT (INDIVIDUALLY WRAPPED)			
41152	Cotton Tip	100/bg	10 bgs/cs
41153	Viscose Tip	100/bg	10 bgs/cs

LabChoice Transport Swabs are designed for efficient specimen collection and transportation. The swabs are contained in a round-bottom plastic tube, incorporating a dry transport system to safeguard samples during transit.

- Designed for efficient sample collection and transportation
- Contained in round-bottom plastic tube with a dry transport system for enhanced protection
- 2 tip varieties: Crafted with soft cotton or rayon tip for improved patient comfort during sampling
- 2 stick varieties: Available with snappable plastic shaft for easy detachment of the swab tip; or durable wooden stick for optimal reliability
- Plastic tube features a convenient label to offer easy product identification
- Plug cap allows for a secure seal
- Not made with natural rubber latex

PET Cell Bottles

ITEM	SIZE	QTY.	CASE QTY.
43150	250 mL	1/pc	100 pcs/cs
43151	500 mL	1/pc	100 pcs/cs
43152	1000 mL	1/pc	48 pcs/cs

LabChoice PET Cell Bottles are crafted from high-quality plastic to provide a stable environment for cell and tissue cultures. The bottles have a space-efficient square design for storage and a secure cap for increased leak resistance.

- Designed to provide a stable environment for cell and tissue culture growth
- Transparent PET materials help provide an effective gas barrier
- Equipped with a secure cap for enhanced leak resistance
- Easy-to-read engraved graduations allow for precise measurement
- Compact square design provides efficient storage
- Sterile, non-pyrogenic, non-cytotoxic

Culture Tube with Dual Position Caps

ITEM	SIZE	QTY.	CASE QTY.
WITHOUT GRADUATED MARKINGS			
42300	12 x 75 mm	25/bg	40 bgs/cs
42301	12 x 75 mm	1/peel pack	500 pcs/cs
42302	17 x 100 mm	25/bg	40 bgs/cs
42303	17 x 100 mm	1/peel pack	500 pcs/cs
WITH GRADUATED MARKINGS			
42304	12 x 75 mm	25/bg	40 bgs/cs
42305	12 x 75 mm	1/peel pack	500 pcs/cs
42306	17 x 100 mm	25/bg	40 bgs/cs
42307	17 x 100 mm	1/peel pack	500 pcs/cs

LabChoice Culture Tubes with Dual Position Caps are designed to provide a controlled environment for cell and tissue cultures, enabling both aerobic and anaerobic conditions. The sterile tubes are constructed from premium plastic materials for optimal durability.

- Sterile tubes designed to provide a controlled environment for culture growth
- Dual-position cap offers both aerobic and anaerobic conditions
- Constructed from premium polystyrene materials for optimal durability
- Ribbed plastic cap provides enhanced grip and easier handling
- Transparent design allows for improved clarity for monitoring contents
- Available with or without printed graduations and marking area

Cryogenic Tubes

ITEM	SIZE	QTY.	QTY.	CASE QTY.
42400	2 mL	50/pk	10 pks/bx	4 bxs/cs
42401	5 mL	25/pk	10 pks/bx	4 bxs/cs

LabChoice Cryogenic Tubes are premium-quality sterile tubes designed to effectively store and transport biological materials in low-temperature environments. The self-standing Tubes feature external threading and a screw cap for secure closure.

- Designed for safe storage and transport of biological materials in extremely low temperatures
- Crafted from high-quality plastic materials for optimal durability and reliability
- Features a screw cap and silicone gasket for a secure, leak-resistant closure
- Self-standing bottoms provide optimal stability
- Externally threaded to reduce the risk of contamination
- Features white writing panel for easy labeling and identification
- Printed, easy-to-read graduation marks allow for precise measurement
- Does not contain DNase, RNase, DNA, or pyrogens
- DO NOT USE IN THE LIQUID PHASE OF LIQUID NITROGEN

Glass Test Tubes

ITEM	SIZE	QTY.	CASE QTY.
42200	10 x 75 mm	250/bx	8 bxs/cs
42201	12 x 75 mm	250/bx	8 bxs/cs
42202	13 x 100 mm	250/bx	8 bxs/cs
42203	16 x 100 mm	250/bx	4 bxs/cs

LabChoice Glass Test Tubes are premium test tubes designed to efficiently contain a variety of substances during laboratory testing. The test tubes are crafted from high-quality borosilicate glass for optimal durability and reliability.

- Premium test tubes designed to contain a variety of substances during laboratory testing
- Crafted from premium borosilicate glass for increased chemical resistance and durability
- Uniform, rounded bottoms provide optimal reliability
- Smooth, fire-polished rims offer enhanced safety
- Transparent glass allows for improved clarity and visibility of contents
- Designed to withstand moderate heating

Plastic Test Tubes

ITEM	SIZE	QTY.	CASE QTY.
POLYSTYRENE			
42000	12 x 75 mm	1000/bg	2 bgs/cs
42002	13 x 75 mm	1000/bg	2 bgs/cs
42004	13 x 100 mm	1000/bg	2 bgs/cs
42005	16 x 100 mm	500/bg	2 bgs/cs

POLYPROPYLENE

42001	12 x 75 mm	1000/bg	2 bgs/cs
42003	13 x 75 mm	1000/bg	2 bgs/cs
42006	16 x 100 mm	500/bg	2 bgs/cs
42007	13 x 100 mm	1000/bg	2 bgs/cs

LabChoice Plastic Test Tubes are premium-quality vessels designed to hold, store, or mix a variety of substances for use in scientific applications. These test tubes are crafted from high-quality plastic materials for optimal durability and reliability during laboratory testing.

- High-quality test tubes designed to store or mix a variety of substances during laboratory testing
- Crafted from premium polystyrene or polypropylene for durability and corrosion resistance
- Transparent plastic allows for improved clarity and visibility of contents
- Polystyrene: maximum speed 1500 RPM
- Polypropylene: maximum speed 3000 RPM, autoclavable

Test Tube Racks

ITEM	SIZE	QTY.	CASE QTY.
42131	90 Holes, 13 mm	5/bg	10 bgs/cs
42132	60 Holes, 17 mm	5/bg	10 bgs/cs
42133	40 Holes, 21 mm	5/bg	10 bgs/cs

LabChoice Test Tube Racks are designed to securely hold test tubes for optimal stability and improved organization in laboratory environments. These durable polypropylene racks are crafted to be easily assembled with a quick snap and feature a stackable design that maximizes storage space utilization.

- Designed to provide stable support and improved organization of test tubes
- Crafted from premium polypropylene for optimal durability
- Three-tier design allows for convenient insertion and removal of tubes for enhanced efficiency
- Easily assembled with a quick snap for immediate use
- Stackable design allows for optimal storage space utilization
- Autoclavable

Flange Plug Caps for Test Tubes

ITEM	SIZE	QTY.	CASE QTY.
------	------	------	-----------

BLUE

42020	for 12 mm TT	1000/bg	10 bgs/cs
42022	for 13 mm TT	1000/bg	10 bgs/cs
42024	for 16 mm TT	1000/bg	10 bgs/cs

TRANSPARENT

42021	for 12 mm TT	1000/bg	10 bgs/cs
42023	for 13 mm TT	1000/bg	10 bgs/cs
42025	for 16 mm TT	1000/bg	10 bgs/cs

LabChoice Flange Plug Caps are crafted from durable polyethylene to help provide a secure seal on a variety of test tubes. These caps feature a double-flanged design to offer superior leak resistance compared to standard plug caps.

- Sturdy polyethylene caps designed to provide a secure seal
- Designed with two flexible flanges to help provide a firm fit for superior leak resistance
- Available in a variety of sizes for optimal versatility

Flex Caps for Test Tubes

ITEM	SIZE	QTY.	CASE QTY.
------	------	------	-----------

TRANSPARENT

42028	13 mm	1000/bg	10 bgs/cs
42029	16 mm	1000/bg	10 bgs/cs

LabChoice Flex Caps for Test Tubes are designed to create a secure seal, minimizing the risk of spills and evaporation. Crafted from durable plastic materials, each Cap is designed with a thumb tab for easy grip and comfortable handling.

- Flexible caps are precision-molded from high-quality polyethylene
- Snap-on design provides a secure seal to reduce risk of spills and evaporation
- Can withstand centrifugation, agitation, refrigeration, and freezing
- Thumb tab allows for comfortable grip and easy removal
- Caps can be labeled with ink for quick identification
- Non-sterile, not made with natural rubber latex
- Available in 13 mm (42028) and 16 mm (42029)

Universal Plug Caps

ITEM	COLOR	QTY.	CASE QTY.
------	-------	------	-----------

42026	Transparent	1000/bg	10 bgs/cs
42027	Blue	1000/bg	10 bgs/cs

LabChoice Universal Plug Caps feature a multi-fit design to deliver a secure seal for a variety of tube sizes. These durable, flexible caps provide enhanced leak-resistance for improved protection against contaminants.

- Durable polyethylene caps provide a secure, leak-resistant seal to protect against contaminants
- Multi-fit, flexible design accommodates a variety of tube sizes for optimal versatility
- Designed for tubes with diameters of 10, 12, 13, and 16 mm
- Available in two colors (transparent and blue) for easy sample identification
- Do not autoclave

Stackable Petri Dishes

ITEM	SIZE	QTY.	CASE QTY.
41001	90 x 15 mm	10/bg	50 bgs/cs
41003	150 x 15 mm	10/bg	20 bgs/cs

LabChoice Petri Dishes are premium-quality polystyrene dishes designed for optimal durability and reliability in laboratory applications. The sterile dishes feature a clear plastic design for improved visibility, ventilation ribs for increased airflow, and stacking lids for added stability.

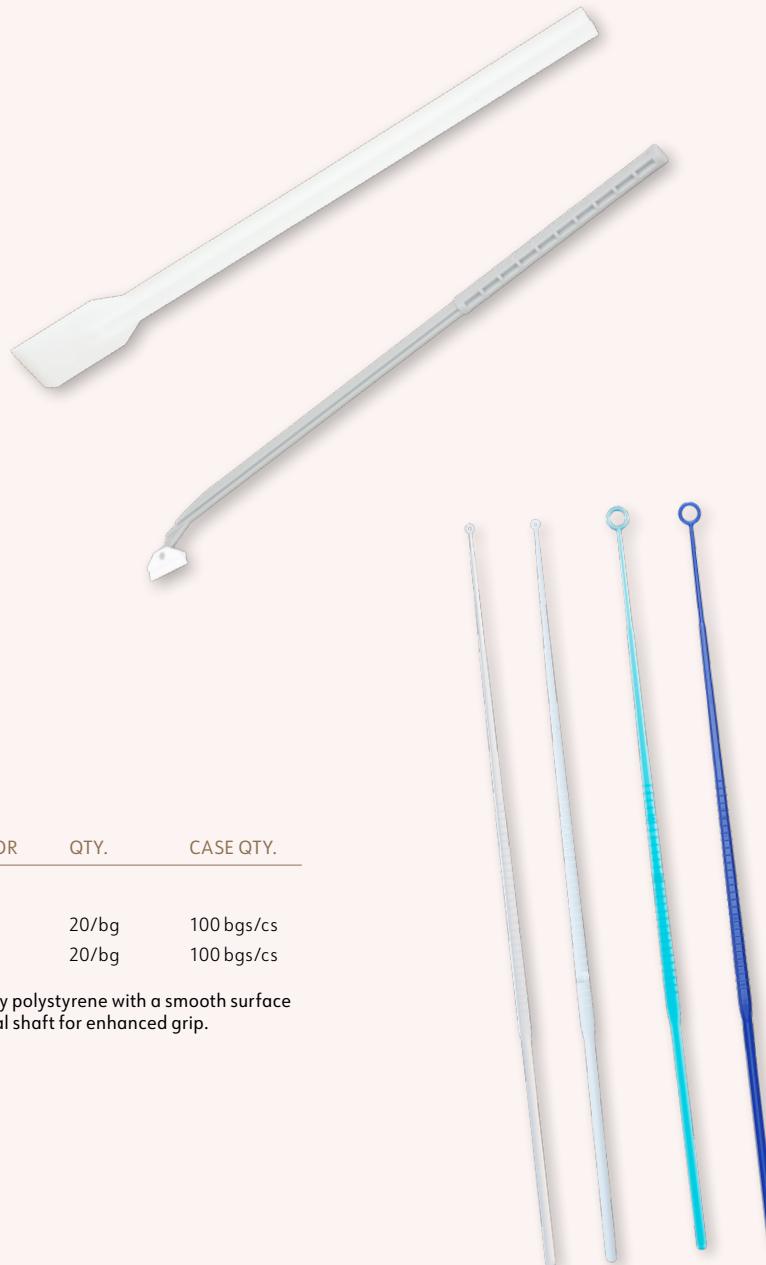

- Sterile dishes crafted from premium-quality polystyrene for optimal durability
- Stackable lid design provides enhanced stability and optimizes storage space
- Clear plastic construction allows for optimal visibility of contents
- Flat bottom provides an even surface for consistent cell growth
- Features ventilation ribs to promote airflow and minimize condensation

Cell Scraper

ITEM	SIZE	QTY.	CASE QTY.
43171	25 cm	1/pc	100 pcs/cs

LabChoice Cell Scrapers feature a flexible polyethylene blade to help promote efficient cell culture sample collections, and a cross-ribbed polystyrene handle for optimal durability.

- Designed for precise cutting and scraping to optimize efficiency in cell culture sample collections
- Thin and flexible polyethylene blade enhances surface contact and minimizes cell damage
- Cross-ribbed, polystyrene handle offers increased durability and an improved grip
- Individually wrapped and sterile for optimal protection
- Nonpyrogenic
- Not made with natural rubber latex

Cell Lifter

ITEM	SIZE	QTY.	CASE QTY.
43170	18 cm	1/pc	100 pcs/cs

LabChoice Cell Lifters are designed for gentle, precise cell retrieval. The lifters feature an angled, carved blade for reduced cell damage and a sturdy handle for optimal functionality.

- Designed for the delicate retrieval and harvesting of cultured cells
- Suitable for use with a wide range of dish types
- Angled, chiseled blade crafted to reduce the risk of cell damage
- Smooth, polyethylene handle offers reliable functionality
- Sterile
- Not made with natural rubber latex

Inoculation Loops

ITEM	SIZE/COLOR	QTY.	CASE QTY.	ITEM	SIZE/COLOR	QTY.	CASE QTY.
RIGID							
43160	1 µl, Transparent	20/bg	100 bgs/cs	43161	1 µl, White	20/bg	100 bgs/cs
43162	10 µl, Blue	20/bg	100 bgs/cs	43163	10 µl, Blue	20/bg	100 bgs/cs

LabChoice Inoculation Loops are designed for accurate microbial transfer, featuring premium quality polystyrene with a smooth surface for consistent streaking. The loops have a durable, flexible handle equipped with a striped hexagonal shaft for enhanced grip.

- Premium-quality loops designed to facilitate precise specimen transfers
- Crafted from high quality polystyrene materials for optimal reliability
- Smooth design allows for even streaking without causing damage to the gel surface
- Hexagonal shaft with stripes improves grip for easier handling
- Flexible plastic handle is highly resistant to breakage for increased efficiency
- Supplied in sterile, resealable bags with zip closure to reduce the risk of contamination
- Available in 1 µl and 10 µl sizes
- Offered in both rigid and flexible loop options

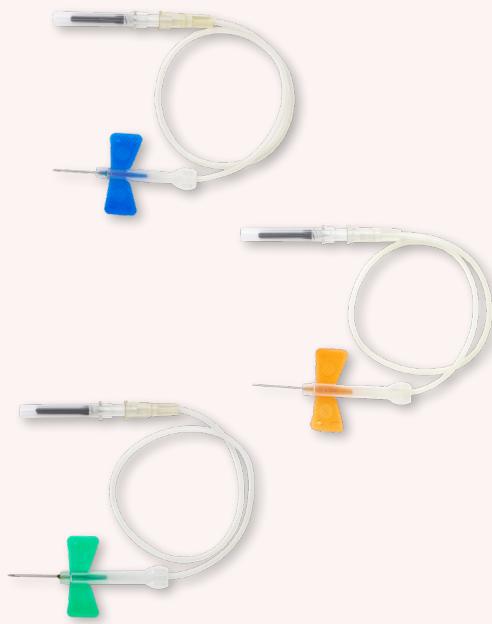

Blood Collection Tube Holders

ITEM	DESCRIPTION	QTY.	CASE QTY.
6914	Safety	50/bg	16 bgs/cs
6933	w/o Needle	250/bx	4 bxs/cs
6934	Luer Lock	—	200/cs
6935	Luer Slip	—	200/cs

LabChoice Blood Collection Tube Holders are designed to provide effective connection to blood collection tubes and needles. These tube holders are constructed from translucent plastic materials for easy viewing and an easy-to-handle design for enhanced control.

- Compatible with blood collection needles, sets and tubes
- Translucent plastic allows for easy viewing of blood collection
- Slim design allows for improved grip and easier handling
- Single-use and disposable for optimal hygiene
- Available with luer-lock or luer-slip connections
- Not made with natural rubber latex or DEHP
- 6934-6935: Equipped with 20 G sterile, stainless steel needle

SecureSafe™ Safety Blood Collection Set

ITEM	SIZE	QTY.	CASE QTY.
8940	21G	50/bx	4 bxs/cs
8941	23G	50/bx	4 bxs/cs
8942	25G	50/bx	4 bxs/cs

LabChoice SecureSafe™ Safety Blood Collection Sets are constructed from premium-quality, flexible materials to help medical professionals provide safe and effective infusions and phlebotomy care.

- Winged blood-collection needle bonded to transparent tubing with luer connector
- Features premium-quality, flexible materials for safe and effective phlebotomy care
- SecureSafe™ safety feature covers needle immediately after use to help prevent accidental needlesticks
- Color-coded wings for easy identification
- 3/4" needle length; 12" tubing
- Single-use and sterile for optimal hygiene
- Not made with natural rubber latex or DEHP

Microscope Slides

ITEM	COLOR	QTY.	CASE QTY.
4170	Clear	72/bx	20 bxs/cs
4171	Frosted	72/bx	20 bxs/cs
4172	Frosted Blue	72/bx	20 bxs/cs
4173	Frosted Pink	72/bx	20 bxs/cs
4174	Frosted White	72/bx	20 bxs/cs
4175	Frosted Yellow	72/bx	20 bxs/cs
4178	Double Frosted	72/bx	20 bxs/cs

LabChoice Frosted Microscope Slides are premium-quality glass slides designed with uniform thickness for optimal accuracy and ground edges for optimal accuracy and safe handling. These convenient slides are pre-cleaned, corrosion-resistant, and ready to use.

- Transparent slides are pre-cleaned and ready to use for optimal convenience
- Crafted from water white glass with ground edges and 45° corners
- Uniform thickness and smooth surfaces help enhance precision and accuracy
- Corrosion-resistant and lint-free for consistent results
- 4170: Clear microscope slides
- 4171-4175: Features frosted writing space for easy specimen labeling and identification
- 4178: Microscope slides with double frosted ends

Microscope Cover Glass

ITEM	QTY.	CASE QTY.
22 MM x 22 MM / THICKNESS 0.12-0.17 MM	10 one-ounce packs/bx	5 bxs/cs

LabChoice Microscope Cover Glasses are designed to cover and protect specimens for efficient microscopic examination. Each cover glass is pre-cleaned, lint-free, and ready to use for optimal convenience.

- Designed to efficiently protect specimens and keep them in place
- Pre-cleaned and lint-free for optimal clarity
- Uniform thickness and flatness
- Corrosion-resistant for improved reliability
- Packed in crush-resistant plastic box for added protection

Disposable Base Molds

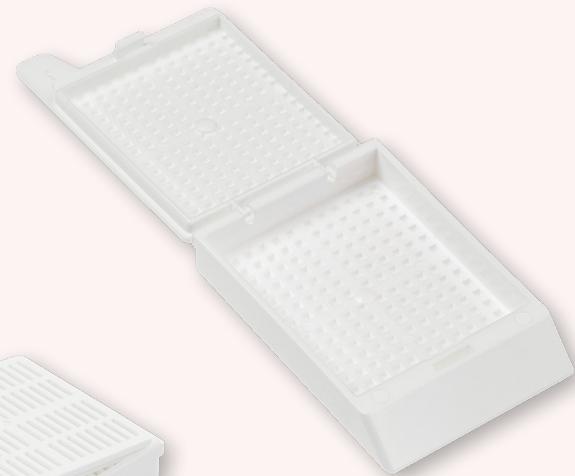

ITEM	SIZE	QTY.	CASE QTY.
42501	17 x 17 x 5 mm	500/bx	10 bxs/cs
42502	25 x 25 x 5 mm	500/bx	10 bxs/cs
42503	25 x 32 x 5 mm	500/bx	10 bxs/cs
42504	25 x 40 x 5 mm	500/bx	10 bxs/cs

LabChoice Disposable Base Molds are designed from high-quality plastic materials for optimal thermal conductivity. They feature a smooth interior finish and rounded corners for easy paraffin block retrieval.

- Made from specially formulated plastic materials for optimal thermal conductivity
- Smooth interior finish and rounded corners allow for safe, efficient specimen removal
- Raised edges minimize the risk of paraffin leakage
- Disposable design helps to simplify and streamline embedding process
- Available in a variety of sizes to fit standard tissue cassettes and embedding rings
- Not made with natural rubber latex
- Do not autoclave

Embedding Cassettes

ITEM	DESCRIPTION	QTY.	CASE QTY.
ATTACHED LID, DISPENSER BOX			
42520	Histology	250/bx	8 bxs/cs
ATTACHED LID, TAPE			
42521	Histology	200/bx	10 bxs/cs
HINGED LID			
42522	Biopsy	500/bx	4 bxs/cs
42524	Histology	500/bx	4 bxs/cs
UNASSEMBLED, SLEEVED			
42523	Biopsy	—	3000/cs
42525	Histology	—	3000/cs

LabChoice Embedding Cassettes are designed to safely hold and protect tissue specimens during the embedding process. These durable, chemical-resistant cassettes are available with rectangular or square holes for optimal fluid flow.

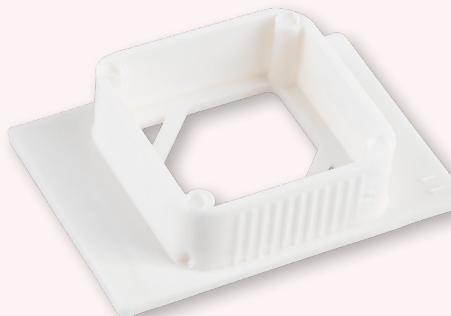

- Designed to securely hold and protect tissue specimens during the embedding process
- Made of sturdy, chemical-resistant plastic for optimal reliability
- Two large labeling areas on cassette sides and a slanted front surface allow for enhanced visibility and efficient tracking
- Features large tab on lid for improved handling and easy opening
- Available with rectangular/stripe holes or square holes for optimal fluid flow
- 42520-42521: One-piece, snap-latch design allows for easy one-handed use and secure lid relocking
- 42522-42525: Features detachable lid, and secure hinge design to allow for repeated opening and closing without specimen loss
- Available in bulk packaging options: dispenser box, taped, or pre-loaded in sleeves

Embedding Ring

ITEM	QTY.	CASE QTY.
42500	500/bx	4 bxs/cs

LabChoice Embedding Rings are designed to provide secure, reliable positioning of tissue block specimens. The rings fit microtome chuck adapters for efficient sectioning and feature an etched writing surface for easy labeling.

- Designed to securely hold tissue block specimens
- Allows for direct embedding of samples
- Easily fits most microtome chuck adapters
- Features etched writing surface for efficient labeling and clear identification
- Made from premium-quality plastic materials for optimal durability
- Disposable, not made with natural rubber latex

Universal Containers

ITEM	SIZE	QTY.	CASE QTY.
POLYSTYRENE			
43050	30 mL	100/bg	4 bgs/cs
POLYPROPYLENE			
43051	30 mL	100/bg	4 bgs/cs

LabChoice Universal Containers are crafted from high-quality polymer materials for the efficient collection of both solid and liquid samples. The containers are designed with a screw-on cap for a secure fit.

- Designed for safe and efficient collection of both solid and liquid samples
- Constructed from premium polystyrene and polypropylene materials for optimal durability
- Features screw-on cap for a secure fit and reduced risk of leakage
- Writing label provides simple and clear identification
- 30 mL capacity
- Not made with natural rubber latex
- 43050: Maximum centrifugation at 4000 \times g
- 43051: Maximum centrifugation at 6000 \times g

Specimen Containers

ITEM	SIZE	QTY.	CASE QTY.
STERILE			
4253	4 oz.	1/bg	100 bgs/cs
4254	4 oz.	—	100/cs
43022	60 mL	—	500/cs

43020	40 mL	40/bg	10 bgs/cs
43021	60 mL	—	500/cs
43025	100 mL	—	400/cs
43026	80 mL	—	500/cs

LabChoice Specimen Containers are designed for the efficient collection of patient samples. The containers are designed with a screw-on cap for a secure fit and feature a frosted writing area for easy identification.

- Premium-quality plastic containers designed for safe and efficient specimen collection
- Features screw-on cap for secure fit
- Frosted writing area on each container allows for easy identification
- 4253-4254: Sterile containers with tamper-evident tabs and ID labels
- 4256: Non-sterile container, packaged in bulk
- Single-use and disposable for optimal hygiene
- Not made with natural rubber latex or DEHP
- Available in sterile and non-sterile varieties

Urine Containers

ITEM	SIZE	CASE QTY.
STERILE		
4283	200 mL, Pediatric	50/cs
43024	100 mL w/Tube Transfer Device	400/cs
43027	90 mL w/Temperature Strip	400/cs
NON-STERILE		
43029	3000 mL, 24-Hour Collection	40/cs

LabChoice Urine Containers are crafted from high-quality plastic materials for the efficient collection and transportation of urine samples and other liquid specimens. The containers are designed with a screw-on cap for a secure fit.

- Plastic containers designed for safe collection and transportation of urine samples
- Constructed from premium-quality plastic materials for optimal durability
- Features screw-on cap for a secure fit and reduced risk of leakage
- Writing label provides simple and clear identification
- 43024: Features integrated transfer mechanism for safe and convenient closed-system transfers
- 43027: Includes temperature strip
- 43029: Large capacity, non-transparent container with handles for 24-hour urine collection
- 4283: Versatile design provides comfort for infant and pediatric use
- Not made with natural rubber latex

Nuns Cap Specimen Collectors

ITEM	CASE QTY.
4232	100/cs

The LabChoice Nuns Cap Specimen Collector is designed to fit securely on standard toilets for efficient specimen collection. The specimen collector features winged edges for improved handling, graduated markings for accurate measurement, and a pour spout for easy disposal.

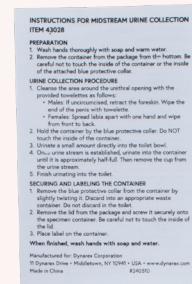

- Designed to fit securely on standard toilets for efficient specimen collection
- Pour spout allows for quick and easy disposal
- Crafted with winged edges for improved grip and handling
- Easy-to-read graduated markings for accurate measurements
- 1000-cc capacity marked in 100-cc increments
- Not made with natural rubber latex or DEHP

Midstream Specimen Catch Kit, 4 oz.

ITEM	CASE QTY.
43028	100/cs

The LabChoice Midstream Specimen Catch Kit contains essential components for efficient and hygienic urine collection. The sterile kit includes a transparent specimen container with a protective collar and leak-resistant cap. The kit includes three BZK towelettes for optimal hygiene.

- Provides essential components for efficient midstream urine sample collection
- Transparent plastic container allows for clear sample viewing
- Features a protective collar for easier handling
- Leak-resistant screw-on cap provides secure closure
- Includes three BZK towelettes for reduced risk of sample contamination
- Wide opening helps to minimize spills
- Features patient label and frosted writing area for clear identification
- Sterile for optimal hygiene
- Not made with natural rubber latex

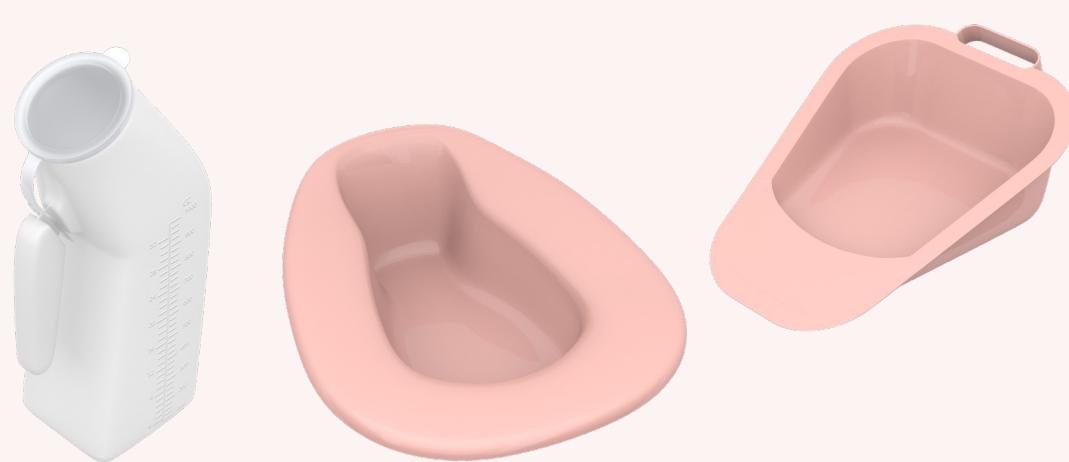

Collection Plastics

ITEM	DESCRIPTION	CASE QTY.
4229	Male Urinal	50/cs
4230	Fracture Bed Pan	50/cs
4231	Stackable Bed Pan	50/cs

Dynarex Collection Plastics offer high-quality fluid collection containers designed for use in healthcare environments, including hospitals, nursing homes, and home care settings. Featuring easy-to-read graduated markings, these containers allow for accurate output measurement. Rolled rims improve handling and help reduce spills, while the smooth, high-gloss finish enables quick and efficient cleaning.

- Easy-to-read graduated markings for accurate fluid measurement
- Rolled rims improve grip and help prevent spills
- Smooth, high-gloss finish allows for easy cleaning
- Universal color scheme complements healthcare facility décor
- Not autoclavable

Stool Specimen Containers

ITEM	SIZE	CASE QTY.
STERILE		
4234	30 mL	100/cs
43011	60 mL	400/cs
NON-STERILE		
43010	60 mL	400/cs

LabChoice Stool Specimen Containers are crafted from high-quality plastic materials for the efficient collection of both solid and liquid samples. The containers are designed with a screw-on cap for a secure fit and a collection spoon for easier sample handling.

- Premium plastic containers designed for safe collection of solid and liquid samples
- Constructed from high-quality plastic materials for optimal durability
- Features red screw-on cap for a secure fit and reduced risk of leakage
- Includes plastic spoon for easier sample collection
- Writing label provides simple and clear identification
- Features 30 mL or 60 mL capacity for efficient sample containment
- Not made with natural rubber latex
- Available in sterile and non-sterile varieties

Sputum Container

ITEM	SIZE	QTY.	CASE QTY.
43000	40 mL	50/bg	8 bgs/cs

LabChoice Sputum Containers are crafted from high-quality plastic materials for the efficient collection and transportation of sputum samples. The containers are designed with a screw-on cap for a secure fit.

- Designed for safe collection and transportation of sputum samples
- Constructed from premium-quality polypropylene materials for optimal durability
- Features screw-on cap for a secure fit and reduced risk of leakage
- Writing label provides simple and clear identification
- Features 40 mL capacity for efficient sample containment
- Not made with natural rubber latex

Self-Standing Transport Tubes

ITEM	SIZE	QTY.	CASE QTY.
43101	5 mL	100/bg	10 bgs/cs
43103	10 mL	100/bg	10 bgs/cs

LabChoice Transport Tubes are crafted for safely storing and transporting laboratory samples. Constructed from durable plastic, these tubes feature a self-standing design for convenient handling and a screw cap for secure sealing.

- Plastic tubes designed to reliably store and transport biological materials
- Crafted from high-quality polypropylene for optimal durability
- Self-supporting structure provides ease of use and improves workflow efficiency
- Screw cap allows for secure closure and enhanced leak resistance
- Clear plastic offers optimal clarity for easy monitoring of contents
- Molded graduated marks allow for precise measurement
- Features white writing panel for easy labeling and identification

Specimen Bags

ITEM	SIZE	QTY.	CASE QTY.
8020	6" x 9", 1.8 mil	100/bg	10 bgs/cs
8021	8" x 10", 1.8 mil	100/bg	10 bgs/cs
8022	12" x 15", 1.8 mil	100/bg	10 bgs/cs
8023	4" x 6", 1.8 mil	–	1000/cs

LabChoice Specimen Bags are designed from durable plastic materials to safely contain and transport patient samples. Each bag features a resealable zip closure and a two-pouch design to keep specimens safe and separated from accompanying paperwork.

- High-quality plastic bags feature 1.8 mil thickness for optimal strength
- Two-pouch design keeps specimens separate from accompanying paperwork
- Resealable zip closure allows for repeated access to contents
- Tear line allows for easy opening when re-sealing is not needed
- Bags feature checkmark boxes to indicate proper specimen temperature
- Available in a variety of convenient sizes to suit a range of needs
- Not made with natural rubber latex or DEHP

Foot Stools

ITEM	DESCRIPTION	CASE QTY.
10550	without Handle	1/cs
10552	with Handle	1/cs

Dynarex Foot Stools provide a stable and durable solution for safely reaching elevated surfaces. Made from heavy-duty steel, they feature a non-skid rubber platform and reinforced rubber feet for added stability. Available with or without a handle for extra support.

- Heavy-duty steel construction with a silver vein powder coat finish
- Non-skid rubber platform provides stability and grip
- Reinforced rubber feet help prevent slippage
- Available with or without a handle for added support
- Limited Lifetime Warranty

Vital Signs Patient Monitors

ITEM	DESCRIPTION	CASE QTY.
10840-W/STAND	Control Knob	1/cs
10841-W/STAND	Touch Screen	1/cs

The Dynarex Vital Signs Patient Monitor precisely records, displays, and stores essential patient information. The monitor includes an anti-glare color screen, user-friendly interface, and rechargeable battery. Choose from 2 working modes: Clinic Mode for rapid physical examination of multiple patients and Monitor Mode for continuous monitoring of a single patient. The unit is lightweight and comes with a rolling stand with a sturdy metal base, height-adjustable pole, and convenient wire basket for accessories.

- Accurately monitors and records NIBP, pulse rate, SpO₂, and temperature
- Stores up to 960 hours of trend data
- 7" anti-glare screen with large font display provides improved visibility
- Interface features interactive popup menus and dialogue boxes
- Includes 2 cuff sizes: Adult (9.8"-13.8") and Adult Large (13"-18.5"), a Proprietary SpO₂ Sensor, Covidien Temperature Sensor, and 100 Probe Covers
- Comes with a height-adjustable rolling stand for increased maneuverability and portability
- Includes rechargeable lithium-ion battery
- Also available with touch screen (10841)
- Suitable for adult, pediatric, and neonatal patients when used with the appropriate sensors

IV Poles

ITEM	DESCRIPTION	CASE QTY.
REMOVEABLE 2-HOOK HANGER		
10554-2HOOK	Economy	1/cs
10555-2HOOK	Deluxe with base	1/cs
REMOVEABLE 4-HOOK HANGER		
10554-4HOOK	Economy	1/cs
10555-4HOOK	Deluxe with base	1/cs
FOLDING		
10561		1/cs

The Dynarex Deluxe IV Pole is a durable, chrome-plated steel pole designed for maximum stability. Ideal for a wide range of healthcare settings.

- Powder-coated steel construction for durability and easy cleaning
- Tool-free, adjustable height, chrome extension pole with locking collar: 46"-81.5"
- Easy to assemble and store for added convenience
- Ideal for hospitals, senior care facilities, and medical treatment centers

Overbed Table

ITEM	COLOR	CASE QTY.
10450-CH	Cherry	1/cs
10450-WN	Walnut	1/cs
10450-OA	Oak	1/cs
10450-MH	Mahogany	1/cs
10450-BG	Beige	1/cs
10450-GR	Gray	1/cs

The Dynarex Overbed Table is designed for optimal convenience and accessibility. The laminate wood tabletop rolls on a height-adjustable, powder-coated base, has locking wheels, and is ideal for use in a wide range of healthcare settings.

- Heavy duty, steel-welded H-base frame
- Spring-loaded locking lift mechanism adjusts table height: 29"-45"
- Distributed tabletop weight capacity 50 lb.

Aluminum Crutches

ITEM	AGE	CASE QTY.
10100	Child	1 pair/cs
10100-8	Child	8 pairs/cs
10101	Youth	1 pair/cs
10101-8	Youth	8 pairs/cs

DME Care Solutions Aluminum Crutches are durable mobility aids designed to accommodate a wide range of users. Featuring a sturdy aluminum frame, convenient push-button height adjustment, cushioned underarm pads, and comfortable hand grips, these crutches offer reliable support for both children and adults.

- Lightweight anodized aluminum frame
- Non-skid rubber tips help provide reliable traction
- Comfortable underarm pads and secure hand grips
- Crutch-bow ends increase flexibility and help prevent slipping
- Push-button height adjustment allows 1-inch incremental changes
- Weight capacity 350 lb.

Universal Crutches

ITEM	CASE QTY.
10104	1 pair/cs

DME Care Solutions Universal Crutches are lightweight, adjustable mobility aids designed for both adults and children. These crutches feature tool-free height and handgrip adjustments and a convenient knock-down design for portability.

- Constructed from lightweight, anodized aluminum for stability and durability
- Versatile crutches support users from 4'7" to 6'7" for adult and pediatric use
- Features ergonomic handgrips and secure underarm cushions for comfort
- Handgrip adjusts easily with euro-style clip for customized fit
- Non-skid rubber tips help reduce the risk of slipping
- Knock-down design and retail-friendly packaging improve portability and storage
- Weight capacity 300 lb.

DynaRide™ Pediatric Wheelchairs with Footrest

ITEM	SIZE	CASE QTY.
15009-12DFR	12" x 12"	1/cs
15009-14DFR	14" x 14"	1/cs

The DME Care Solutions DynaRide Pediatric Wheelchair with Footrest is a premium-quality mobility aid designed to provide safe and comfortable transport in a variety of settings.

- Sturdy, steel construction for optimal durability and reliability
- Detachable, swing-away footrests with calf straps for improved comfort and effortless transfer
- Push handles are height-adjustable for optimal customization
- Standard transit tie-down brackets and pelvic belt allow for safe transportation
- Padded flip-back desk arms for convenient, comfortable support
- Push-to-lock wheel locks for reliable stability
- Weight capacity: 150 lb.
- Available in 12" (15009-12DFR) and 14" (15009-14DFR)

DynaRide™ Series 4 X-Lite Wheelchairs

ITEM	SIZE	CASE QTY.
